

Data Fellowship Project 2022

The Italian Chamber of Commerce and Industry for the UK – Data Elaboration for the Survey of Italian Investments in the UK

Organisation and Team

The ICCIUK is a private, not-for-profit, membership organisation that represents the Italian-British business community and promotes business relationships between Italy and the UK.

We bring together businesses – ranging from individual entrepreneurs to large corporations – and advance the interests of our members through contacts and interaction with Italian and UK agencies, trade associations and leading international organisations.

More information about us and our team can be found on our website www.italchamind.org.uk

Project Outline

Survey of Italian Investments in the UK
7th Edition

The 7th edition of the Italian Chamber of Commerce and Industries for the UK's study, i.e. the Survey of Italian investments in the UK, comes at a time of profound changes, driven by Covid-19, Brexit and other factors, such as reshoring, digitalisation etc. This makes our publication a valuable tool for economic operators wishing to understand the evolution of Italian investments in the UK.

The students involved in the project will help ICCIUK's staff to analyse the data provided by Italian and UK Institutions - such as the Italian Trade Agency, the Italian Embassy and the Department for International Trade – as well as by the Italian companies in the UK.

Selection Method

- CV
- Interview

Application Criteria

Essential:

- Background in finance/economy/data analysis
- English mother tongue or C1/C2 level

Desirable:

- Past experience with similar projects
- Some knowledge of the Italian language

Data Fellowship Project 2022

Practical Considerations

The ICCUK team interacts virtually due to its locations in different cities of the country but the traineeship will have an hybrid format and students will have access to the ICCIUK Manchester Offices based in Manchester City Centre.

Support and Training

Students involved in the project will be guided and followed by a member of the ICCIUK team regarding content and data to analyse.

Following the data analysis, students will write a report that will be inserted in the Survey of Italian Investments in the UK.

Involved students will learn how to work in a team, respect deadlines and follow instructions.

Students will be monitored and supported by a mentor in order to make sure they are constantly motivated and assisted in the delivery of the assigned tasks. Tasks will be assigned after a background explanation of general goal of the Survey and each different task.

Students will be given the necessary tools to achieve the task requested, and once completed, the supervisor will check the results with the students, providing feedback. The supervisor will be available to assist the students throughout the entire process.

Knowledge, skills and competences to be acquired by the end of the traineeship:

- Better understanding of processes in the British and Italian marketplace, office life and project management assistance;
- Improved research skills; improved interpersonal, communicational and English language skills;
- Improved working performance in tight schedules, respecting deadlines;
- Optimisation of autonomous and independent work ethics, as well as strong teamworking abilities.
