

ASSESSING AND ADDRESSING HEALTH EQUITY BARRIERS FOR DIGITAL PAIN SELFREPORTING

Do you have arthritis or any other long-term musculoskeletal pain condition?

Are you interested in improving the way long-term pain is measured?

We are looking for people with experience of living with a painful musculoskeletal condition to attend a 2-hour focus group discussion. It will help us to understand the impact of introducing digital self-reporting on health equity

ARE YOU?

- An adult (aged 18 and above)
- Affected by arthritis or any other long-term musculoskeletal pain condition
- Able to speak, read and understand English
- Connected to the internet
- Living in the UK

THEN

HELP US!

BY TAKING PART IN AN
ONLINE GROUP
DISCUSSION

To express your interest in taking part please contact us at:
painmanikin@manchester.ac.uk

Watch orientation video: www.youtube.com/watch?v=Ol32C3VzM7A

You will be compensated for your time.
