REASONS TO STUDY

*EARTH AND
ENVIRONMENTAL
SCIENCES*

AT

MANCHESTER

Hello

We are looking forward to welcoming you to the University of Manchester and with your offer, you're already part of our community.

Before you get here, we wanted to share what your future here looks like and why you'll love studying at Manchester.

You'll be joining one of the largest departments of Earth and Environmental Sciences in the UK, giving you **access to a wide range of research specialisms.**

You will benefit from small-group working and **a close working relationship with renowned, world-leading teachers in their field.**

We are ranked in the **top 10 universities** in the UK for **Earth and Environmental Sciences.**

(QS World University Rankings 2022)

Our common first year allows you to **explore different areas before you decide your pathway.**

You can change from **Earth and Planetary Sciences to Environmental Science** and from a 3-year degree to 4-year, once on the course.

You will journey throughout the UK and across the world on cv-enhancing field trips that will equip you with transferable skills, such as **problem-solving and team-working.**

We're the **most targeted university by the nation's top graduate employers**

with our Earth and Environmental Sciences graduates earning an **average salary of £26,711** 15 months after graduation.

(The Graduate Marketing in 2022, High Flyers Research. Graduate Outcomes survey from students graduating during 2018/2019)

We pride ourselves on the amount of support we offer students, from our **dedicated well-being hub**, to our award-winning

PASS (Peer Assisted Student Study) scheme.

PASS allows you to utilise the experience and expertise of higher year volunteer students (PASS Leaders). You'll also be assigned **a dedicated academic advisor** who can help you with academic issues and guide you through your transition from school or college to university.

You'll join a close-knit, multicultural student community with a huge variety of societies to get involved with, including our **Manchester Energy and Environment Society and the Scientists for Climate Action and Responsibility Society**, where you can find a community of like-minded people and build life-long friendships.

Manchester was the first university in the UK to commit to **social responsibility** as a core goal. You'll have the opportunity to take action, **make a difference and stand out in the job market** by developing the distinctive attributes of a Manchester graduate through our CV-enhancing Stellify scheme.

about Stellify

From its industrial heritage to **its thriving cultural scene**, there is something in Manchester to inspire everyone.

Welcoming and vibrant, it's been named the **UK's best city to live in** for several consecutive years.

(Global Liveability Report 2015 – 2021, The Economist Intelligence Unit)

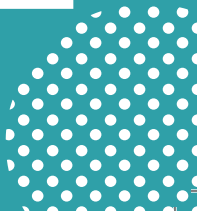

You're part of our offer-holder community now.

Keep up to date on all the latest news, events and stories for your department including regular updates about what your learning will look like from September by checking your

dedicated offer holder hub.
