

# Structural Biology Symposium

12th September 2022 from 09:45—17:30

Michael Smith Building

This symposium aims to highlight the world-class range of structural biology groups here at the University of Manchester. The programme will span all structural methodologies including X-ray crystallography, Cryo-EM, NMR, SAXS, Structural Mass-Spec and Bioinformatics/Modelling. It will also be an opportunity for early career researchers (Postdocs & PDRAs) to present their work, with a lunchtime poster session in the Michael Smith Lounge, 15-minute talks in the Lecture Theatre, followed by networking/ social drinks back in the Lounge from 16.30pm.

We very much hope that you will be able to join us!

Deadline for abstract submissions is 12 August. Please submit abstracts to [thomas.zacharchenko@manchester.ac.uk](mailto:thomas.zacharchenko@manchester.ac.uk)
