School of Social Sciences

Proud and ambitious, down to earth and friendly, we offer you a world-class learning experience that's rooted in a rich educational heritage. Our exceptional courses span a unique combination of eight key disciplines; Economics; Criminology; Law; Politics; Sociology; Social Anthropology; Social Statistics; and Philosophy.

Each degree course has been designed to give you the best start in your career. You'll graduate with the knowledge, practical skills, and personal qualities that will prepare you for real-world challenges.

Join us for a chance to learn from academic experts who are thought leaders in their fields.

Ranked in the UK's top ten for social science courses

(Times Higher Education Rankings 2022)

Put your learning into practice on professional placements

4,500+

Undergraduate students represented by 85 nationalities

Travel the world and spend a year abroad with international study opportunities

A leading centre for social science research in the UK

(Research Excellence Framework 2021)

Degrees with flexibility and choice, with the opportunity to sample a broad range of social science subjects

Manchester - ahead of the game

Where Manchester treads, the world follows. Ask any of the people who live and work here.

There are many reasons why Manchester is renowned across the globe. But to the people that live here, it's simply known as home. With its indisputable charm and welcoming communities, you'll find it quickly becomes your home too.

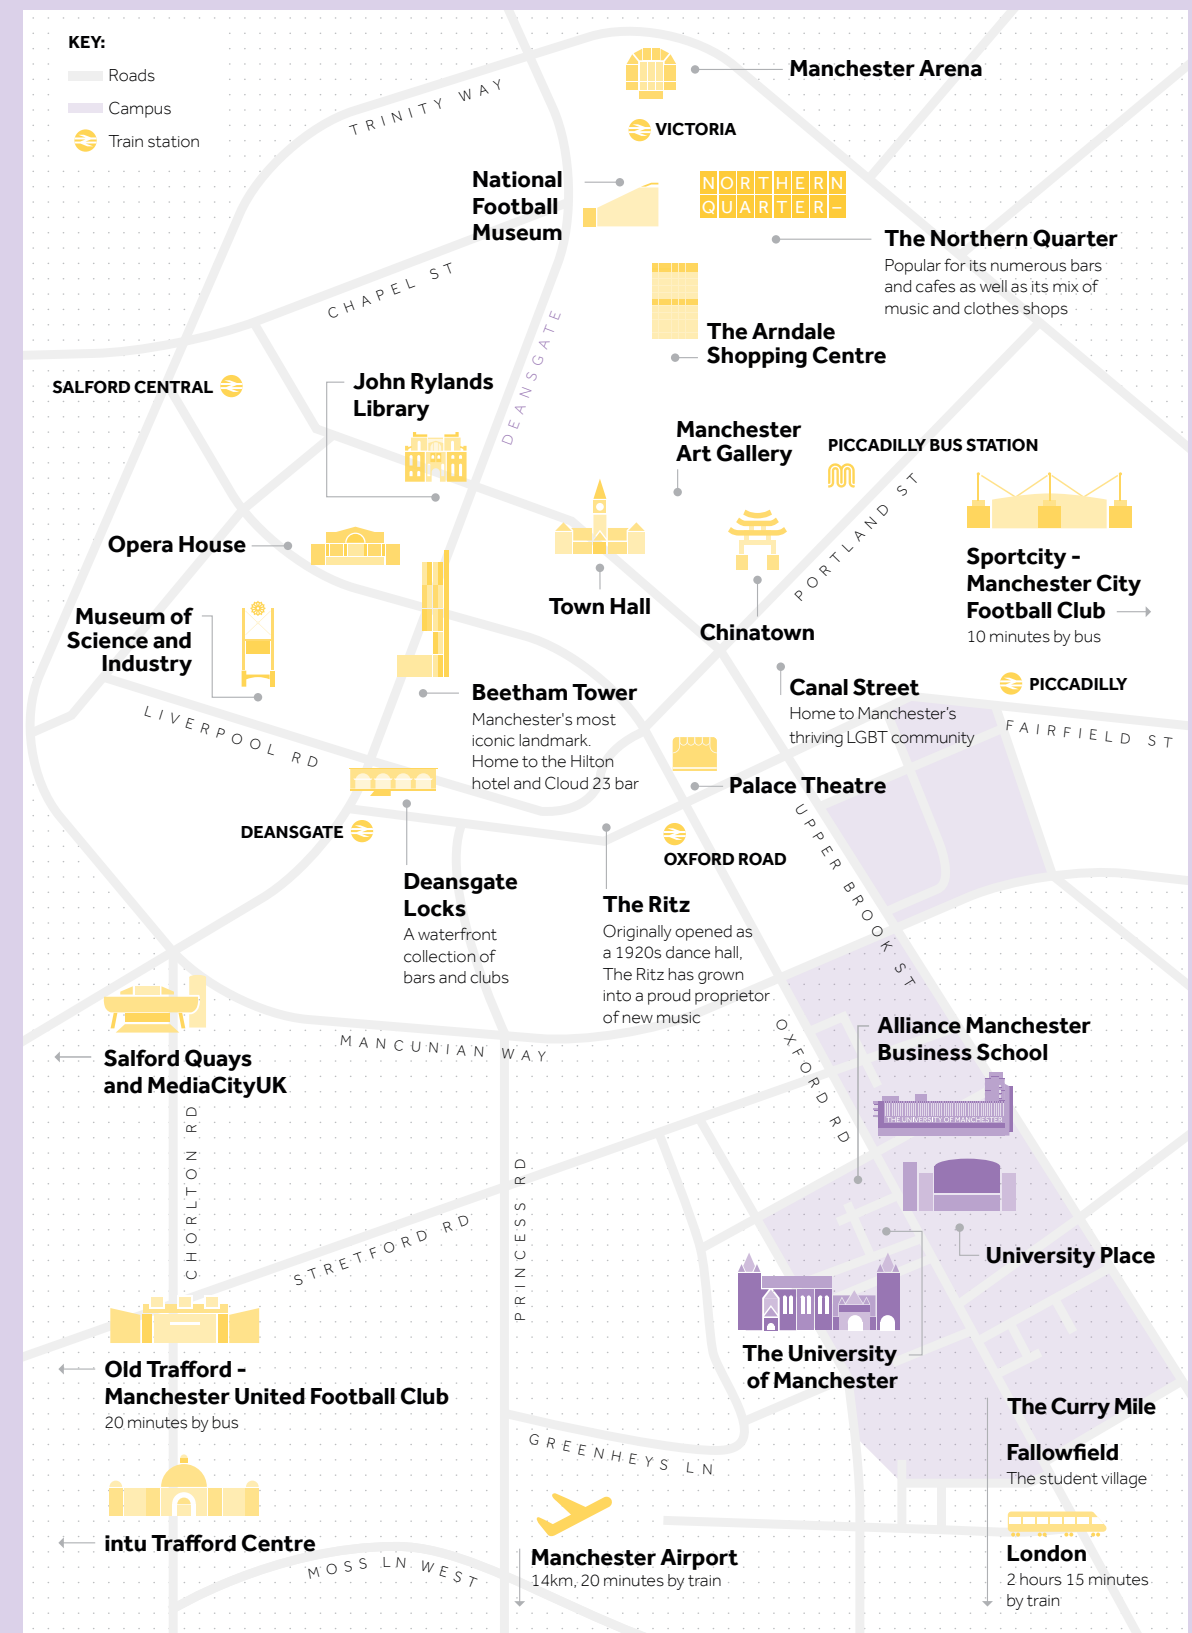

A CITY OF FIRSTS

1st

Where Rolls met Royce, the first computer was made, the atom was split for the first time and the world's first professional football league was founded

- **The ultimate student city** with one of the largest student populations in Europe (>99,000)
- The University of Manchester is **one of the most popular universities in the UK** in terms of applications to our degree courses (source: UCAS)
- One of the most diverse cities in the world with **over 200 languages spoken**
- **The most visited city in England** outside London (source: Visit Britain)
- Home to the UK's third largest airport with direct flights to **over 190 destinations worldwide**
- **A musical hotbed** – The Smiths, Oasis, The Stone Roses and Joy Division all formed in Manchester
- **World-class sports facilities** including the Aquatics Centre and National Cycling Centre
- **35% lower cost of living** compared to London (source: Numbeo) but only two hours away from the capital by train
- **Home to MediaCityUK** – a leading international hub for the creative and digital sectors

Accounting and Finance

The BAEcon Accounting and Finance programme combines the best offerings from two schools at The University of Manchester: the School of Social Sciences is one of the leading centres for social science research in the UK, offering more than 100 modules to our students in the BAEcon programme; and the Accounting and Finance division at the Alliance Manchester Business School is a leading department that delivers excellent research and teaching. You will receive comprehensive training in critical thinking and quantitative evaluations from our Economics department and a broad selection of social sciences modules, as well as professionally-accredited accounting and finance modules offered by the Alliance Manchester Business School.

COURSE LISTING

Accounting and Finance BAEcon	3 or 4 years NN43
Economics and Finance BAEcon	3 or 4 years LN13
Finance BAEcon	3 or 4 years N300

RANKING

5th

in the UK for
Accounting
and Finance
(Times Higher
Education
Rankings 2022)

COURSE DESIGN

Accounting and Finance students on the BAEcon programme have the flexibility to complement social sciences modules to their compulsory economics, finance and accounting modules. Accounting and Finance modules offered by the Alliance Manchester Business School grant you exemptions from the examinations of professional accountancy bodies, particularly those of the ICAEW, giving you a fast track to chartered accountancy status.

COURSE UNITS

Each year of study consists of 120 course credits. Each course unit is worth between 10 and 40 credits. The degree features a mix of mandatory and optional course units, with more optional units becoming available as you progress through your course.

YEAR ONE gives you a solid foundation in Accounting and Finance as well as providing a broader context of social sciences subjects. Each student will take at least 20 credits from a list of approved social science modules

EXAMPLE COURSE UNITS

Financial Reporting	10 M
Financial Decision Making	10 M
Microeconomics	20 M
Macroeconomics	20 M
Power and Value: Perspectives from Social Sciences	10 M
Optional units from Politics, Sociology, Philosophy, Social Anthropology and Social Statistics	20 O

In YEAR TWO you develop your understanding and begin to focus on your own areas of interest.

EXAMPLE COURSE UNITS

Foundations of Finance	20 M
Management Accounting	20 M
Investment Analysis	10 M
Financial Markets & Institutions	10 O
Mergers and Acquisitions	10 O
Managerial Economics	20 O
A language course or the Stellify Programme	20 O
Other units in Economics, Development, Politics, Sociology, Philosophy, Social Anthropology and Social Statistics	O

In YEAR THREE you choose your final areas of specialisation.

EXAMPLE COURSE UNITS

Empirical Finance	40 M
Contemporary Issues in Financial Reporting & Regulation	20 O
Share Prices & Accounting Information	10 O
Accountability & Auditing	10 O
Financial Derivatives and Engineering	20 O
Financial Economics	10 O
Advanced Corporate Finance	20 O
Applied Practical Investing	10 O
A language course or the Stellify Programme	20 O
Further options in other social sciences	O

Key M Mandatory unit
O Optional unit

■ Self-guided study/Extracurricular/Personal ■ Timetabled study

*This is an example timetable, your exact timetable may vary.

STUDY ABROAD†

You can apply in Year 2 to spend a year abroad in Year 3, extending your programme to four years. If you are successful, you will put together a package of course units at your host university in consultation with your Academic Exchange Advisor in Manchester. The degree title will include 'with International Study'.

PROFESSIONAL EXPERIENCE OPPORTUNITY

In year one you may apply for a paid professional placement year to boost your employability. If successful, the Professional Experience team will work with you to find a suitable placement to complete in year three. You will be completing the year three coursework in year four. Your degree title will be extended to include 'with Professional Experience', giving you the added advantage of relevant work experience when entering the competitive graduate jobs market.

"I found out that shrewd analysis is needed in every step along the way. I knew that I wanted to be a part of this and pursuing a career in finance would get me to my desired field of work. I now enjoy having a deeper understanding of how everything works and can actually do those finance-related things myself."

FARIS GHANDOUR, BAECON FINANCE STUDENT

DAY IN THE LIFE

SAMMUN MUMTAZ

BAEcon student Sammun shares her typical study day at The University of Manchester

7:30am: Make a packed lunch and head out for my 9am Economic History lecture. I live close to campus so I enjoy the walk through Whitworth Park to the Roscoe Building.

11am: After my lecture, I head to the library and eat my lunch in the café area downstairs. Then head up to the study rooms with my friends for a good old work session!

3pm: Go to my Political Theory Tutorial in the Samuel Alexander Building.

4pm: Back to my flat to spend some time relaxing after a busy day! I unpack my things and get ready to meet a friend for dinner.

6pm: I head out and catch a bus to town.

The buses run from the University to the City Centre very often. We meet at Franco Manca, a lovely pizza restaurant in Piccadilly Gardens, great for students!

8:30pm: I walk back and socialise with my flatmates and we watch some TV.

10pm: I check my schedule for my day tomorrow, and then get some rest!

CAREERS AND EMPLOYABILITY

This professionally orientated degree is ideal for anyone who is interested in a career in accounting, finance or professional services. Our recent graduates have gone on to secure positions with notable international employers such as Deloitte, PwC, Credit Suisse, HM Revenue and Customs, KPMG, and Morgan Stanley.

The University has its own dedicated Careers Service that you have full access to as a student and for two years after you graduate.

Find out more about careers and employability:

of students went on to employment or further study 15 months after graduating, with an average starting salary of

£27,500

(Discover Uni)

Criminology

Criminology has been described as a rendezvous subject that brings together various disciplines in the study of crime and deviance. You will gain an understanding of criminality and the institutions of criminal justice within their social, economic, and political context. In addition to this, you will engage in research methods training, learning how to collect, analyse and present data to explain issues of crime and deviance. Studying our data analysis units provides you with valuable transferable skills; our focus on research methods training is one of the reasons our graduates are so employable.

The course is delivered by world-leading experts through research-led teaching, meaning that you will be learning about the very issues our experts are researching. We also have excellent links to criminal justice practitioners, allowing you to gain real insight into how criminological knowledge is applied in a variety of sectors. You will also have the opportunity to take part in a paid internship and our award-winning Learning Criminology Inside programme, in which some of our students take their tutorials inside a local prison and study alongside prison-based students.

COURSE LISTING

Criminology BA 3 years M901

Criminology with International Study BA 4 years M904

COURSE DESIGN

Our criminology programmes are delivered using a range of methods, including lectures and tutorials as well as lab-based sessions and workshops. Formal contact hours range from 10 to 12 hours per week.

Each year of study consists of 120 course credits. Typically, a unit is worth 20 credits, which means you will take six units each year. As you progress through your degree, you have greater freedom to choose units that most interest you, including units from other social science disciplines.

YEAR ONE introduces you to criminology through a variety of compulsory course units. You will study the criminal justice system and criminal law alongside theories of criminal behaviour.

EXAMPLE COURSE UNITS

Crime and Society 20 M
Criminological Research Methods 20 M
Criminal Law 20 M
Psychology, Crime and Criminal Justice 20 M

In YEAR TWO, you will extend your understanding of criminological theory and your knowledge of the practices and techniques used in contemporary criminal justice systems.

You will also develop your understanding of quantitative and qualitative research methods.

EXAMPLE COURSE UNITS

Policing and the Police 20 M
Explaining Crime and Deviance 20 M
Modelling Criminological Data 20 M
Understanding Punishment 20 M
Criminology and Criminal Justice in Action 20 O

In YEAR THREE, you will study a unique range of optional subjects delivered by leading experts teaching from original research projects. You can also hone your research skills with a dissertation based in analysis of real crime data.

EXAMPLE COURSE UNITS

Short or long dissertation 20 or 40 O
Crime Mapping: an introduction to GIS and spatial analysis 20 O
Drugs and Society 20 O
Victims 20 O
Youth, Crime and Justice 20 O
The Criminal Psychopath 20 O
Serious and Organised Crime 20 O

These are examples of course units offered in 2022/2023 and are subject to change.

DAY IN THE LIFE

AMY TYLEY

Criminology student Amy shares her typical study day at The University of Manchester.

7:30am: My alarm goes off. I'm quite an early bird, so first on the list is breakfast.

I usually eat in my flat kitchen because there's always someone about to chat to.

8:00am: I usually make myself some lunch, pack up my laptop and textbooks, put my gym clothes on and head to the bus stop.

8:45am: I arrive at Uni just a short 15 minutes later, meet my course friend at one of the cafés on campus.

9am: Lecture 1, the majority of my lectures and tutorials are in the first half of the day. I have an hour-long break in the café before a tutorial at 12pm.

1:15pm: Bus home, drop my stuff off in my flat and head to the gym. The Armitage Centre is a 30-second walk, costing £80 for a full-year membership.

3:30pm: Back to my flat to shower and

get a hot drink. I write myself a to-do list and I set myself three hours of work involving report reading, preparing for tutorials and essay planning.

6:30pm: Shut down my laptop and eat dinner with my flatmates in the kitchen, watching our favourite type of trashy TV. If we decide to go for a few drinks at the Squirrels bar on campus, we will head out around 8pm and back in time to get enough sleep to do it again tomorrow!

"In Year 2, I was fortunate enough to take part in a Q-Step internship at the Home Office in London. I had an eight-week paid placement where I worked on current projects around domestic homicides, child sexual abuse and cyber bullying. This really opened my eyes to the importance of social research and the influence this can have on policy."

HANNAH WATTS, BA CRIMINOLOGY
GRADUATE. SENIOR SOCIAL RESEARCH
OFFICER AT UK CIVIL SERVICE

STUDY ABROAD†

If you apply to our Criminology with International Study BA, you'll have the opportunity to spend a year abroad exploring your subject in an international context.

CAREERS AND EMPLOYABILITY

Our Criminology graduates pursue a variety of careers, including:

- criminal justice system-related professions;
- police and offender management
- community justice;
- national intelligence and security agencies;
- charity and voluntary sector organisations;
- government;
- teaching.

The BA Criminology course has employability skills embedded throughout, such as opportunities to meet and network with a range of experienced practitioners and graduates as well as access to specialist careers events covering a broad range of professions.

The University has its own dedicated, award-winning Careers Service that you will have full access to as a student and for two years after you graduate.

Find out more about careers and employability at Manchester here: uom.link/soas-careers-ug

PAID PLACEMENT OPPORTUNITIES

Apply for a paid Q-Step work placement between Years 2 and 3. It is an excellent opportunity to apply research skills and make professional contacts. Recent placements have included the Police Uplift Programme, Her Majesty's Prison and Probation Service and the Crime and Policing Analysis Unit.

Find out more about the Q-Step programme: uom.link/ug-soas-qstep

Economics (BSc)

Our BSc Economics degree offers a distinctive approach to quantitative economics that brings together research-informed study and practice-led approaches. This course is for economics specialists and attracts students with a strong mathematical background wishing to become a skilled economist, looking to progress to postgraduate study, or wanting to start a career in a renowned organisation.

As a professional economist you must have a clear understanding of economic principles to recognise and model relevant economic problems. You must also be equipped with mathematical and econometric tools to solve and analyse such problems. Our flexible Economics BSc allows you to tailor your studies to fit the career you wish to pursue after graduation. The analytical reasoning, essay writing and quantitative techniques provided in the degree give you the very best employment prospects for your post-university journey.

At Manchester, you'll experience an exciting learning environment, with teaching from committed and passionate experts who embrace dynamic and forward-thinking strategies to enhance learning.

"The reason I chose Economics is because I am curious about how things work. By studying Economics, I will be able to understand, for example, how people make decisions and how the government's actions would affect society's development. Meanwhile, I can also learn how to think about problems with different perspectives."

YIJUN ZHU, BSC ECONOMICS STUDENT

DAY IN THE LIFE

A TYPICAL DAY IN THE LIFE OF A BSC ECONOMICS STUDENT

8am: I'm usually out of the door by 8:15am to give me a bit of time to walk to campus and grab a cup of tea from the Alan Gilbert Café in the Learning Commons.

9am: Lecture starts. Most days, lectures start at either 9 or 10am.

10am: I usually catch up with friends following my lecture then get a bite to eat from one of the cafes on campus. There's pretty much one in every building. You can get most types of food either on campus or close by.

12pm: I head off to meet one of the academics from the course. I want to discuss some of the theory we learnt in class and to ask about some further reading.

2pm: A two-hour tutorial to further explore some of the things that were brought up in the lecture earlier.

4:30pm: I head back and to my flat through the park, then grab some ingredients to make a meal for my flatmates.

7pm: We head out to the local pub for the pub quiz.

11pm: Get some rest for a busy day tomorrow!

STUDY ABROAD†

As a BSc Economics student, you can choose to spend your third year abroad studying Economics in an international context with one of our partner institutions. You'll have the chance to join leading research teams at sites across the globe, where you will work with practiced experts who help shape our knowledge of the field. On your return you will study course units from Year 3 in Year 4.

EMPLOYMENT

80%

of students went on to employment or further study 15 months after graduating, with an average starting salary of

Economics

(BA ECONOMIC AND SOCIAL STUDIES)

The BAEcon is a broad social sciences degree based around a core of economics, mathematics and statistics courses. The degree is designed to appeal to the inquisitive economist who wants to develop a career but is not yet sure which specialism to take. This flexible, innovative and multidisciplinary degree allows you to study a broad range of subjects before deciding on your pathway at the end of your first year. The course brings together research-led teaching in accounting, anthropology, economics, finance, philosophy, politics and sociology, offering considerable depth of insight, perfect for those targeting a contemporary workplace which values a broad set of skills.

Our BAEcon course is one of the largest degree programmes in the UK and the biggest in the University's School of Social Sciences, meaning you'll be joining a large community of students specialising in a wide variety of disciplines.

DEVELOPMENT STUDIES

Our Development Studies course is taught as a pathway within the BAEcon degree. It is an interdisciplinary field of study concerned with the issues, problems and policy options facing the developing world, such as inequality, poverty, hunger and wellbeing. Each of the disciplines in the School of Social Sciences offer development-related units that are combined together on this stream.

COURSE LISTING

Economics BAEcon	3 or 4 years L100
Economics and Data Analytics BAEcon	3 or 4 years LL15
Economics and Philosophy BAEcon	3 or 4 years LV15
Economics and Politics BAEcon	3 or 4 years LL12
Economics and Sociology BAEcon	3 or 4 years LL13

STUDY ABROAD†

You can apply in Year 2 to spend a year abroad in Year 3, extending your programme to four years. If you are successful, you will put together a package of course units at your host university in consultation with your Academic Exchange Advisor in Manchester. The degree title will include 'with International Study'.

CAREERS AND EMPLOYABILITY

We offer a high-quality, research-led student experience that will prepare you for a career as a professional economist, employment in a range of economics-related areas or for further study in economics, business and finance.

Our graduates have gone on to successful careers in areas including accountancy and professional services, finance and banking, and government. Other popular avenues include journalism and the media, charities, consultancy, civil service, finance, marketing and PR, social work, teaching, law and postgraduate study. The University has its own dedicated, award-winning Careers Service that you have full access to as a student and for two years after you graduate.

Find out more about careers and employability at Manchester here:

*This is an example timetable, your exact timetable may vary.

PROFESSIONAL EXPERIENCE OPPORTUNITY

In year one you may apply for a paid professional placement year to boost your employability. If successful, the Professional Experience team will work with you to find a suitable placement to complete in year three. You will be completing the year three coursework in year four. Your degree title will be extended to include 'with Professional Experience', giving you the added advantage of relevant work experience when entering the competitive graduate jobs market.

"Following my degree at Manchester, I was hired on the graduate programme after working as a summer intern in the same department. I am now working as an Assistant Tax Advisor for Ernst and Young. The BAEcon, and everything I did whilst at The University of Manchester, has been invaluable at interviews and assessment centres. Many former classmates have similarly been hired by the Big 4 and other reputable organisations, testament to the employability of Manchester students."

ALISHBA CHOCHAN, BA ECONOMICS,
ASSISTANT TAX ADVISOR FOR ERNST AND YOUNG

Law

Our LLB courses offer a distinctive approach to legal education from a globally recognised institution that bring together research-informed and practice-led approaches to the study of law.

As a student in our Law School you'll have the opportunity to draw on the abundant expertise of academics, professional networks, legal practitioners and experts in social justice across the School of Social Sciences. You'll also have access to first-class facilities and our award-winning Justice Hub to put your skills into action, both independently and with other students.

Our courses cover an exciting range of legal topics and you can choose to study a joint honours degree combining Law with Criminology or Law with Politics. Our 4-year Law with International Study LLB offers the opportunity to travel across the world to explore your subject in an international context.

At Manchester you'll experience a supportive learning environment, with teaching from committed and passionate experts who embrace dynamic and forward-thinking approaches to enhance your learning.

COURSE LISTING

LLB Law	3 years	M100

for Law
(Times Higher
Education
Rankings 2022)

COURSE DESIGN

You will be taught in a combination of lectures, seminars and workshops. In your first year, you will build the foundation of your studies by undertaking compulsory units in Law and units relating to your joint honours programme.

As your studies progress, you will study two further full-year foundational subjects and select credits from a range of specially designed units that reflect your interests and career ambitions. In your third year, you will select further course units, which offer specialised and in-depth study. You may also choose to write a dissertation based on a topic of your choice.

LAW LLB

YEAR ONE consists of four full-year subjects that provide you with the foundation of your legal studies.

YEAR ONE - COURSE UNITS

Introduction to Law
and Legal Skills
Contract Law
Criminal Law
Public Law

YEAR TWO comprises two more full-year foundational subjects that build upon concepts and skills from year one. You will also select three 20-credit subjects from a range of specially designed units which build upon your foundational studies.

YEAR TWO - COURSE UNITS

Land Law
Law of Torts

In YEAR THREE you will be able to select six 20-credit subjects which focus on specialised areas of law.

YEAR THREE - EXAMPLE COURSE UNITS

Human Rights	20	○
Law in a Global Context	20	○
Law in Practice	20	○
Principles and Practice of Commercial Law	20	○
Equity and Trusts*	20	○
European Union Law*	20	○
Environmental Law	20	○
Company Law	20	○
Employment Law	20	○
Principles of Law, Medicine and Ethics	20	○
Criminal Evidence	20	○
Miscarriages of Justice	20	○
Competition Law	20	○
Jurisprudence	20	○
Mental Health Law	20	○
LegalTech	20	○
Family Law and Relationships	20	○
Constitutional Reform	20	○
Advocacy and the Law	20	○

*Students wishing to satisfy the professional requirements of training for the Bar Standards Board must take these course units.

DAY IN THE LIFE

ALLEN JUDGE

Law with Politics student Allen shares a day in the life at The University of Manchester

9:15am: I have plenty of time to have a coffee, have some brekkie and head to the University for my lessons.

10am: I arrive at the Gender, Sex and Politics tutorial with plenty of time to spare. Nothing quite like a tutorial to wake you up!

11am: I walk from my politics tutorial to my 2-hour European Union law lecture. I find that politics is more about why things are the way they are, whereas law is about what the things are, both very enjoyable but in different ways.

1pm: Wednesdays are by far my favourite day of the week.

You only ever get half a day of studies because Wednesday afternoons are for everyone who is involved in sports, for BUCS competitions.

2pm: As a Rugby Union referee, I usually don't have to travel too far to officiate a game. Today I'm at Platt Lane Sports Complex, which is only about thirty minutes away from the campus.

4pm: Catch the bus which takes me all the way up to my accommodation.

5pm: Make dinner. Nothing fancy tonight – just Spaghetti Bolognese with a Chicken Kiev and I am all fuelled up!

7pm: Being in Manchester,

it's impossible not to have your football allegiances, and mine is red. A pretty routine 5-0 victory against Brugge at home and it caps off a good day for me.

10.30pm: Time to get to sleep so I'm ready for tomorrow!

STUDY ABROAD†

As a Law student, you can apply to explore your subject in an international context by studying abroad during your third year at one of our partner institutions in Europe, Australia, Canada, USA, New Zealand, Hong Kong, and Singapore.

"I have a lot of interest in Human rights, Criminal Law, and Corporate Law, especially the environmental aspect. With the current issues surrounding human rights such as human trafficking, and problems like climate change, I feel like these are areas with a growing demand and need as many people helping as possible."

ROSIE HUTCHINSON, LAW WITH CRIMINOLOGY LLB STUDENT

CAREERS AND EMPLOYABILITY

Our Law department embeds employability across its courses and has excellent links with legal professions, business and the public sector. We run sessions and workshops giving you the opportunity to meet employers and hone employability skills. You will also benefit from our award-winning Justice Hub, which provides you with opportunities for you to volunteer and put your legal knowledge into practice by undertaking legal advice work.

As a University of Manchester Law student, there's a wide range of exciting careers within your reach. You could become a specialist in fields as diverse as finance, healthcare, criminal justice, business, management, central government and, of course, the legal profession.

The University has its own dedicated and award-winning Careers Service that works closely with the Law department to provide specialist advice tailored to you. You will have full access to the Careers Service as a student and for two years after you graduate.

SOLICITORS QUALIFYING EXAM PREPARATION

The Law School has collaborated with a global legal education provider BARBRI to offer our graduates a comprehensive preparation programme for the Solicitors Qualifying Exam (SQE) after graduation. This collaboration creates a pathway to qualify as a solicitor, learning from BARBRI's industry-leading legal education to prepare for the SQE.

RECOGNITION BY THE BAR STANDARDS BOARD

You will have the opportunity to study courses that cover the foundations of legal knowledge necessary to satisfy the academic component of training to become a barrister in England and Wales.

Politics, Philosophy and Economics (PPE)

PPE is a structured, yet flexible course in which you study significant topics and public problems through a vibrant intellectual community spanning three disciplines within the Social Sciences. You'll cover issues ranging from global money markets to ideals of social justice, and learn rigour in understanding an argument. You will learn how key insights from different fields can be applied to pressing policy concerns and - in doing so - gain a rich set of intellectual and critical skills.

As a PPE student, you will learn to assess and debate competing ideas about political events, ideologies and institutions using skills in critical analysis and constructing arguments. You'll develop core skills in quantitative analysis for economics BA and learn to apply this knowledge to evaluate economic policies. The interdisciplinary nature of the programme will enable you to place the study of economics in a broader institutional and political context. You will also develop the ability to evaluate and think through philosophical arguments and positions.

As well as the BA Social Sciences (see pages 54-57) you can also study Politics alongside a language or East Asian Studies. Find out more: uom.link/ug-salc-courses

DISCOVER PPE

See our full list of modules, entry requirements and more online.

Scan the QR code or use this link: uom.link/ppe-ug-23

COURSE DESIGN

You will begin the course by studying equally across the three disciplines. The strong core programme across the three disciplines continues into the 2nd year, when a wider range of optional course units becomes available. In your final year, you may choose to concentrate on two of the three disciplines or continue to study all three. You will complete an interdisciplinary course unit specific to PPE students and a dissertation supervised by a staff member from one of the three departments.

Each year of study consists of 120 course credits. Each course unit is worth between 10 and 40 credits.

In YEAR ONE you study 40 credits in each discipline area.

EXAMPLE COURSE UNITS

Introduction to Political Theory	20 P M
Critical Thinking	20 PH M
Microeconomics	10 E M
Macroeconomics	10 E M
Introductory or Advanced Mathematics	10 MS M
Introductory or Advanced Statistics	10 MS M

One optional Politics unit:

Introduction to Comparative Politics	20 P O
Politics of the Global Economy	20 P O
International Politics	20 P O

One optional Philosophy unit:

History of Philosophy	20 PH O
Introduction to Metaphysics and Epistemology	20 PH O
Introduction to Philosophy of Mind	20 PH O

In YEAR TWO your studies are again split equally between the three areas but you have more freedom to choose units that reflect your developing interests.

EXAMPLE COURSE UNITS

Ideals of Social Justice	20 P M
Formal Logic	20 PH M
Ethics	20 PH M
20th Century Analytical Philosophy	20 PH M
Philosophy of Mind	20 PH M

Choose 20 credits of core units from:

Microeconomics	10 E M
Macroeconomics	10 E M
Politics: See page 42-45 for options	O
Philosophy: See page 38-41 for options	O
Economics: See page 18-21 for options	O

You may take up to 20 credits with the University College for Interdisciplinary Learning (UCIL) as a free choice.

In YEAR THREE you may choose to concentrate on two of the three disciplines, pursuing in depth the interests you have developed in year one and two.

EXAMPLE COURSE UNITS

Topics in PPE	20 M
Dissertation	20 OR 40 M
Politics: See page 42-45 for options	O
Philosophy: See page 38-41 for options	O
Economics: See page 18-21 for options	O

You may take up to 20 credits with the University College for Interdisciplinary Learning.

DAY IN THE LIFE

ROHAN'S MANCHESTER

Rohan Mistry, PPE student, shares his favourite things about Manchester

TOP PLACE TO STUDY

My favourite place to study either has to be the main library, there is always space and it has everything you need, or at the very top of the Simon building, floor six looking out above Manchester. The Simon building is normally reserved for computer science students but when it is free it's a super quiet beautiful spot to sit down, plug in and do some work.

EXTRACURRICULAR ACTIVITY

I take a lot of pride and enjoyment in the work I do with my society. With the PPE Society I have travelled to Dublin and Amsterdam, met many of my friends and helped create a great university experience for the next set of students in putting on events and competitions. This final year we have run more charitable events, socials and academic events than ever before. Societies are some of the best ways to meet people and also step up and lead if that is what you enjoy.

LIVING IN MANCHESTER

The best thing about living in Manchester has to be the convenience of it all. All on one road you have student accommodation, a beautiful park, grocery stores, most university buildings, clubs and pubs, and then at the very end of Oxford Road you're in town.

THINGS THAT SURPRISED ME

The quality and accessibility of services, for instance the level of care afforded by the Careers Service is a massive boost to anyone's confidence. The amount of time that goes into helping write your CV, practice interview skills and setting up employer events is really useful.

"I wanted to broaden my knowledge in these subjects. I want to understand the world around me and how everything works. I genuinely think you cannot fully understand it without looking at it from different perspectives at the same time. Economics allows you to see things from a pragmatic perspective whilst Philosophy asks different types of questions. Politics is where the two of them meet and you would be surprised to realise how connected everything is."

ADELINA VOLOSCHI, POLITICS, PHILOSOPHY AND ECONOMICS BA STUDENT

STUDY ABROAD†

You can apply to spend your third year abroad to explore your subject in an international context. Upon your return, you will complete your third year studies in a fourth year of your degree.

PAID PLACEMENT OPPORTUNITIES

Apply for a paid Q-Step work placement between Years 2 and 3. It is an excellent opportunity to apply research skills and make professional contacts. Recent placements have included the Home Office, The Times and the Office for National Statistics.

Find out more about the Q-Step programme: uom.link/ug-soss-qstep

CAREERS AND EMPLOYABILITY

The interdisciplinary nature of PPE will offer you a wealth of transferable skills.

Our recent graduates are now working for organisations such as Goldman Sachs, KPMG, the National Audit Office, the United Nations, US Congress, and the Adam Smith Institute.

The University has its own dedicated, award-winning Careers Service that you have full access to as a student and for two years after you graduate.

Find out more about careers and employability at Manchester here: uom.link/soss-careers-ug

EMPLOYMENT

75%

of students went on to employment or further study 15 months after graduating, with an average starting salary of

£28,000

(Discover Uni)

Philosophy

The BA Philosophy course offers a distinctive approach to the subject from a globally recognised institution that brings together research-informed study and practice-led approaches. This course attracts students wishing to explore and challenge commonly accepted ideas with their intellect and open-mindedness. Manchester has one of the leading philosophy departments in the UK with 14 members of permanent academic staff. Our staff are internationally recognised researchers, publishing their work and giving talks around the world.

The BA in Philosophy enables you to learn how to develop and justify your own answers to some of the most fundamental and important questions like: What makes something the morally right thing to do? Do we have free will? Does God exist? Can words cause harm? Is the human mind just a lump of grey matter?

While we'll explain some of the existing answers to these questions and the reasons why one might think those answers are correct, our focus is on learning how to critically assess these arguments and to develop and argue for your own answers utilising a complete range of transferable skills. This adeptness is valuable for your career as well as in everyday life, whether you're deciding what to do, having an argument with a friend, or simply reading a newspaper.

DAY IN THE LIFE

MARIA LUÍSA CURSINO

Philosophy student Maria shares her typical study day at The University of Manchester

7am: Wake up, do a quick yoga session, shower, and get ready for the day ahead.

8am: Have a big breakfast with my friends and head out for the day.

9am: Formal Logic lecture starts at the Kilburn Building.

11am: Head to Milk and Honey for some chai tea, a little studying and eventually some soup with my friends.

1pm: Make my way to the Arthur Lewis Building to attend an EDI meeting, as I am the UG Rep for the School of Social Sciences. This has been a great opportunity to engage with the academics and senior staff in our School. They are always very eager to hear what the UG community has to say.

2pm: Commute to tutor secondary school pupils in English Literature and Language. This has been a great part-time job as it has allowed me to explore Greater Manchester and interact with the city beyond the University.

5pm: I go back home and head to the stunning library at my accommodation to study and prepare for the week ahead

7pm: Dinner with my friends

8pm: I head to my room after a long day and check in on family and friends back home.

9pm: I head out to dance at Revolución de Cuba with my friends from Latin America. Wednesdays are Reggaeton and Salsa night. Manchester is a super vibrant city, especially at night!

"Studying Philosophy allowed me to explore new ways of thinking that I would never have otherwise come across. Its applicability to so many different areas is what drew me to it initially, and studying at Manchester has meant I now have skills in many different areas like logic, sociology and politics. All the lecturers here are very passionate about their subject, making it all the more interesting to learn."

LOIS UDUJE, BA PHILOSOPHY GRADUATE,
COMMUNICATIONS AND COMMUNITY ASSOCIATE AT ZINC

PROFESSIONAL EXPERIENCE OPPORTUNITY

In year one you may apply for a paid professional placement year to boost your employability. If successful, the Professional Experience team will work with you to find a suitable placement to complete in year three. You will be completing the year three coursework in year four. Your degree title will be extended to include 'with Professional Experience', giving you the added advantage of relevant work experience when entering the competitive graduate jobs market.

EMPLOYMENT

Politics and International Relations

Politics at Manchester is structured around three core teaching areas: Comparative Politics, International Politics and Political Theory. This structure extends across everything we do, from teaching to world-class research.

We will help you develop solid intellectual foundations while also giving you increasing choice, diversity of subjects and approaches as you progress through your second and third years. Due to the size of the department, you benefit from access to internationally recognised research across a broad range of areas. There are multiple research clusters which host a lively series of talks and debates. Our clusters include: Global Political Economy, Critical Global Politics, Democracy and Elections, Comparative Public Policy and Institutions, and the Manchester Centre for Political Theory.

COURSE DESIGN

The BSocSc (Hons) in Politics and International Relations is our single honours course for politics specialists.

In year one and two, you will take course units from across the three core areas, plus options from other disciplines, such as Economics, Sociology, History, Philosophy or Languages. Each year of study consists of 120 course credits. Each course unit is worth between 10 and 40 credits.

YEAR ONE provides an introduction to the three core areas as well as training in university-standard research and study skills.

EXAMPLE COURSE UNITS

Introduction to Comparative Politics 20 M
Making Sense of Politics 20 M
International Politics 20 M
Political Theory 20 M
British Politics: Power and the State 20 O

You can take up to 40 credits outside Politics. O

Key

- M Mandatory unit
- O Optional unit

In YEAR TWO you develop your understanding in the three core areas, taking at least 20 credits of each, and also begin to focus on your own areas of interest.

EXAMPLE COURSE UNITS

Ideals of Social Justice 20 M
How to Conduct Politics Research 20 M
The Politics of (in)Security 20 O
Arguing About Politics: Political Theory in the World 20 O
The Politics of Development 20 O
Gender and Politics in Comparative Perspective 20 O
Racism and Ethnicity in the UK 20 O

In YEAR THREE you pick your final areas of specialisation, including a dissertation on a topic of your choosing

EXAMPLE COURSE UNITS

Dissertation 40 M
The Politics and Philosophy of Nationalism 20 O
Elections and Voters in Britain 20 O
Political Morality and Dirty Hands 20 O
Chinese Politics 20 O
Ethical Issues in World Politics 20 O
Postcolonial Politics 20 O
American Politics: Why do they do that? 20 O
Gender, War and Militarism 20 O

These are example course units from 2022/23 and are subject to change. See the full list of course units and find out more online: uom.link/politics-ug-23

DAY IN THE LIFE

SARAH TEGAS

Politics student Sarah Tegas shares her typical study day at The University of Manchester

I usually wake up around **7:30**. I head over to my kitchen for morning yoga, to have a smoothie bowl and then get ready to go to uni.

Around 9am: I hop on my bike to get to lectures. Manchester looks even nicer by bike, you don't have to queue for the bus, cycling lanes are all over town and you get a bit of fresh air and exercise!

Uni day: Our lecturers always tell us it is the best time to be studying Politics. What you hear in the news will always be connected to some parts of the course material: from Brexit to Trump, the climate and refugee crises. Tutorials will follow to dig deeper into the course material in groups of 10 students with

the supervision of a tutor. I have always found those classes highly valuable for meeting your course mates, getting advice on your assignments, and having very interesting discussions on the state of the world.

Extracurricular activities: Once a week, I would meet with other members of the Politics society committee to discuss the organisation of socials, talks and career events. I also train with the Kickboxing society – even got my blue belt and met amazing friends. Then, in the rest of my free time, I volunteer with some charities in Manchester – I teach English to refugees. I also try to make the most out of Manchester's lively nightlife, for all its concerts, clubs, bars and restaurants.

"I wanted to study Politics and International Relations so that one day I am able to help change things in our society. The University of Manchester is one of the top ranked Universities in the UK and worldwide. It is also gifted with a sizeable, well respected Politics and International Relations team which helped confirm my choice. My experience at the University has been simply amazing. I have had the chance to meet politically minded students who like me came from a different country with different views and cultures."

JULIEN NOURIAN, POLITICS AND INTERNATIONAL RELATIONS GRADUATE.

STUDY ABROAD†

As a Politics student, you'll have the opportunity to spend your third year abroad to explore your subject in an international context. Upon your return, you will complete your third year modules in a fourth year of your degree.

PAID PLACEMENT OPPORTUNITIES

Apply for a paid Q-Step work placement between Years 2 and 3. It is an excellent opportunity to apply research skills and make professional contacts. Recent placements have included the Home Office, the Department for Education and Office for National Statistics.

Find out more about the Q-Step programme: uom.link/ug-soss-qstep

CAREERS AND EMPLOYABILITY

As well as the specialist knowledge you'll gain, our degrees will equip you with a wealth of transferable skills including the ability to research, examine and analyse information; think critically; present your ideas clearly and succinctly; demonstrate excellent written and oratory skills and present a reasoned argument. Our recent graduates have gone on to secure positions with notable international employers including; BDO, Deloitte, Ernst & Young, PwC, Grant Thornton, Credit Suisse, Deutsche Bank, HM Revenue and Customs, KPMG, the NHS, the National Audit Office and PwC.

The University has its own dedicated, award-winning Careers Service that you have full access to as a student and for two years after you graduate.

£31,000

within 5 years (Discover Uni)

Social Anthropology

Social Anthropology is the comparative study of cultures, essentially asking what it means to be human. Contemporary anthropology is a critical discipline that tackles an enormous variety of topics. You could consider questions about how people make families, worship gods and organise their economic and political lives. In short, studying Social Anthropology changes the way you think.

At Manchester, we train you to think anthropologically to see beyond what is usually taken for granted. We provide you with a cross-cultural and critical understanding of the major issues facing the world today. You will have direct access to experts in the field of anthropology working on a fascinating range of topics such as: visual and sensory media; the impact of new reproductive and genetic technologies; AIDS, sexuality and masculinities; race, cities, migration and infrastructures; urban and border politics; crafts, play and worship. Our researchers pioneered the study of difficult political and moral issues concerning colonial systems. We lead the way in the anthropological analysis of social change, environmental issues, cities, and social networks. We continue this legacy by emphasising the importance of 'engaged anthropology' – seeing anthropology as a way to address global issues of inequality.

DAY IN THE LIFE

LAUREN HOWIE

Social Anthropology student Lauren shares her typical study day at The University of Manchester

I know you've been thinking about it, in-between late-night scrolls on TikTok and risky purchases on Depop. What's life like for an Anthropology student at the University of Manchester? Let me put you out of your misery.

Housing and transport: If, like me, you've landed yourself in Fallowfield: the epicentre of student culture in Manchester, then you're in for a real treat. It is bursting at the seams with vinyl stores, charity shops and eclectic cafes (for all you trend setting vegans out there, I know you're listening). You might also like to know that it's on the fastest bus route in all of Europe...or so I was told on my open day. Either way there's nothing more beautiful than the sight of a 142 bus when

you're hungover and late for your 9am.

Lectures: One of the perks of having a small cohort is that we all know each other well - a good or bad thing depending on what you got up to on Friday night. Our lectures are normally two hours long and include lively discussions and supplementary films. Once a month we head to the local pub for a Pint with Professors night.

After uni: I like to head to the sports centre for a kick-boxing class. The society has over 80 (very sweaty) members and is the perfect way to let off steam. If kicking things doesn't float your boat then there are a trillion other activities to choose from like the cheese and wine society or the Quidditch Club (don't ask, I don't know). When all this is done I hurry home to join my housemates. Depending on the mood we might whip up a three-course meal or order chips from Chester's. And so there you have it, the weird and wonderful life of an anthropology student at The University of Manchester. You may get back to your TikTok addiction now in peace.

STUDY ABROAD†

As a Social Anthropology student you'll have the opportunity to travel across the world to explore your subject in an international context. You can join research teams at sites across the globe for both one-off field trips or as part of a year studying abroad at one of our partner universities in Europe, Australia, Canada, the USA, Hong Kong or Singapore.

PROFESSIONAL EXPERIENCE OPPORTUNITY

In year one you may apply for a paid professional placement year to boost your employability. If successful, the Professional Experience team will work with you to find a suitable placement to complete in year three. You will be completing the year three coursework in year four. Your degree title will be extended to include 'with Professional Experience'.

PAID PLACEMENT OPPORTUNITIES

Apply for a paid Q-Step work placement between Years 2 and 3. It is an excellent opportunity to apply research skills and make professional contacts. Recent placements have included the Institute for Public Policy Research, the Fawcett Society and the BBC.

Find out more about the Q-Step programme: uom.link/ug-soss-qstep

EMPLOYMENT

80%

of students went on to employment or further study 15 months after graduating, with an average salary of

£27,000

within 5 years
(Discover Uni)

CAREERS AND EMPLOYABILITY

Employers are increasingly recognising the value of a degree that combines an understanding of culture and society with practical people skills and the ability to think outside the box.

Our students go on to work across a range of sectors, including charities and NGOs, local and national government, the media and arts, education and business. Another popular route is postgraduate study with us.

Recent graduates work for:

- Friends of the Earth;
- Department of Work and Pensions;
- Manchester City Council;
- Royal Bank of Scotland;
- Teach First;
- BBC.

The University has its own dedicated, award-winning Careers Service that you have full access to as a student and for two years after you graduate.

Find out more on careers and employability:
uom.link/soss-careers-ug

Sociology

Sociology is the study of social life and social change. It adopts the perspective that individual behaviour can only be understood by studying people's social context and their webs of connection.

An investigative 'myth-busting' discipline, sociology critically examines core assumptions about social life. Research and teaching are often motivated by the desire to improve or challenge the conditions of life and society, and sociology provides a critical perspective on how and why we might change our social worlds.

As a Sociology student at Manchester, you get the opportunity to study many different topics, from the reproduction of inequalities in relation to social categories (such as race, class or gender), to the shaping of intimate relationships by wider cultural contexts, or the generation of resistance and protest by economic trends and crises. Manchester's lecturers are all actively engaged in research and writing on a range of sociological topics, meaning you are taught by people at the forefront of current sociological research and theory.

COURSE LISTING

DAY IN THE LIFE

GEORGIA SHAW

Sociology student Georgia shares her typical study day at The University of Manchester

8.30am: Wake up grab some breakfast and have a morning catch up with my housemates before they head off for the day. We then walk to uni through the park, it takes about 30mins.

10am: Two-hour lecture on Crime and Society.

12pm: Me and a friend have a tutorial for another module later on so can't head back home just yet. We decide we'll eat our lunch and then head to the library to get some essay prep done.

2pm: The tutorial is an hour long and mostly involves talking over the week's lecture and reading to make sure that we all understand the concepts, and to see our opinions on things. We briefly discuss the upcoming essays to make sure we're all on track for getting them done.

3pm: We head to our favourite place for a coffee and catch up on a bit more work.

4pm: We walk down to 'On the 8th day', a veggie food store, to grab some supplies. A couple of friends join us in a beer garden. We are near Rudy's Neapolitan pizza, the best place about to get pizza, so we head there and get a table.

8.30pm: I'm at home now with my housemates catching up on our day and plans for what we're going to do at the weekend.

10.30pm: I watch an episode of something on Netflix before I head to bed ready for a new day tomorrow.

STUDY ABROAD†

As a Sociology student, you can apply to explore your subject in an international context by studying abroad during your third year at one of our partner institutions in Europe, Australia, Canada, USA, New Zealand, Hong Kong, and Singapore. Upon your return, you will complete your third year modules in a fourth year of your degree.

PAID PLACEMENT OPPORTUNITIES

Apply for a paid Q-Step work placement between Years 2 and 3. It is an excellent opportunity to apply research skills and make professional contacts. Recent placements have included the Greater Manchester Combined Authority, the National Poverty Monitor and UK Data Service.

Find out more about the Q-Step programme: uom.link/ug-soss-qstep

CAREERS AND EMPLOYABILITY

BSocSc Sociology gives you the skills to analyse and interpret contemporary social challenges. You build on your analytical and investigative skills and develop the tools needed for independent thinking, research and analysis.

We embed a course on professional development for sociologists, called 'Sociology Futures', that runs across all three years of your undergraduate degree. The course involves activities to help you develop and identify a range of useful skills for your studies and future career.

Recent graduates are now working at:

- The Ministry of Justice;
- the NHS;
- the British Council;
- United Nations Refugee Agency

Another popular route is postgraduate study with us. The University has its own dedicated, award-winning Careers Service that you would have full access to as a student and for two years after you graduate.

DISCOVER BA SOCIAL SCIENCES

See our full list of BASS courses, modules, entry requirements and more online. Scan the QR code or use this link: uom.link/bass-ug-23

COURSE DESIGN

In the first year you will follow a broad course that includes at least three of the six main areas. This will offer a wide-ranging introduction to the social sciences and to basic transferable, analytical and critical skills. As you progress you will choose

subjects to specialise in, exploring these through research-led teaching, before specialising in one or two areas. You will also complete a research project (dissertation) in one of your areas of study.

DATA ANALYTICS PATHWAYS

Social scientists use a wide range of analytical skills to understand the social world. Much of the data used is quantitative and there is a growing demand among employers for graduates to have the skills to analyse data in all its forms. Course units provide training in collecting, handling and analysing data using a range of online resources and specialist software. In year

one you have an option to explore quantitative approaches to the study of inequality and learn how to analyse new sources of social media data. In years two and three more specialist options include demographic analysis and the advanced study of social networks. Each year of study consists of 120 course credits. Each course unit is worth between 10 and 40 credits.

YEAR ONE gives you a broad introduction to the Social Sciences, enabling you to make an informed choice of areas to specialise in for your second and third years. All BASS students in Year One are on two "pathways". Students must take at least 20 credits from each of their chosen pathways and at least 20 credits from another BASS pathway.

In YEAR TWO you will begin to specialise. If you decide to specialise in one pathway you will take between 60 - 80 credits in it. If you decide to specialise in two pathways you will take at least 40 credits in each. Students can also take up to 20 credits of first year units or 20 credits of free choice.

In YEAR THREE you will choose your final areas of specialisation. If you decide to specialise in one subject you will take between 60 - 80 credits in it. If you decide to specialise in two subjects you will take at least 40 credits in each pathway. Students must take a dissertation from one of their pathway subjects. Students can also take up to 20 credits of second year units or 20 credits of free choice.

EXAMPLE COURSE UNITS

Engaging with Social Research	20	M
Philosophy	20	O
Politics	20	O
Social Anthropology	20	O

■ Self-guided study/Extracurricular/Personal ■ Timetabled study

*This is an example timetable, your exact timetable may vary.

"I plan on pursuing a career that involves learning the globalising society and interacting with different cultures. More specifically, I'd like a career that strives to learn how the economy is driven under a dynamic world and how we adapt to these changes in everyday lives."

ASHLEY IP, SOCIOLOGY AND CRIMINOLOGY BA STUDENT

PROFESSIONAL EXPERIENCE OPPORTUNITY

In year one you may apply for a paid professional placement year to boost your employability. If successful, the Professional Experience team will work with you to find a suitable placement to complete in year three. You will be completing the year three coursework in year four. Your degree title will be extended to include 'with Professional Experience', giving you the added advantage of relevant work experience when entering the competitive graduate jobs market.

STUDY ABROAD†

You can apply in year one to spend a semester abroad in year two. If you are successful, you will put together a package of course units at your host university with your Academic Exchange Advisor in Manchester.

PAID PLACEMENT OPPORTUNITIES

Apply for a paid Q-Step work placement between Years 2 and 3. It is an excellent opportunity to apply research skills and make professional contacts. Recent placements have included the Home Office, Manchester City Council and The Times.

Find out more about the Q-Step programme: uom.link/ug-soss-qstep

CAREERS AND EMPLOYABILITY

The course units available give you a range of subject specific transferable skills, such as the ability to think critically, present your ideas clearly and succinctly, develop creative solutions to problems, and present a reasoned argument. Some of our recent graduates now work at the Ministry of Justice, Friends of the Earth, Google and Palgrave Macmillan.

The University has its own dedicated, award-winning Careers Service that you would have full access to as a student and for two years after you graduate.

Find out more about careers and employability at Manchester:
uom.link/soss-careers-ug

EMPLOYMENT

80%

of students went on to employment or further study 15 months after graduating, with an average starting salary of

£25,000

(Discover Uni)

Employability

Our courses offer great scope for you to shape your studies in line with your career aspirations.

During your time at the University, you can learn more about different careers through guest lectures, discussions with your academic advisor, summer internships and work placements. You'll also have the opportunity to meet employers at our events.

CAREERS SERVICE

Our Careers Service will prepare you for the competitive jobs market and help you find part-time jobs, volunteering opportunities and work placements. This service helps make Manchester one of the most targeted universities by graduate employers (High Fliers Report 2021).

Visit our Careers Service website to find out more: uom.link/soss-careers-ug

MANCHESTER LEADERSHIP PROGRAMME

This University-wide second year course unit offers a unique combination of academic units and volunteering. You will learn the importance of leadership in promoting social, economic and environmental sustainability.

Visit our website to find out more about the Manchester Leadership Programme: uom.link/ug-soss-mlp

MANCHESTER GOLD

Career mentoring is a really useful way of meeting people

working in your chosen field. Students can apply to be matched with an employer mentor from a wide range of sectors, depending on their own ambitions.

THE UNIVERSITY OF MANCHESTER GLOBAL ALUMNI COMMUNITY

With more than 500,000 alumni worldwide, you'll never be far from another graduate of The University of Manchester. There are established alumni groups in countries around the world to help you stay connected to each other and to the University – great for networking within your country and professional industry.

UNIVERSITY COLLEGE

The University College of Interdisciplinary Learning offers optional units outside of your subject area. Units will introduce you to topics and ways of thinking, tackling the key questions facing society in the 21st century - for example, the digital revolution,

globalisation and mental health. Our units equip you with invaluable knowledge and skills which will complement your studies and help make you more employable.

To find out more visit the UCIL website: uom.link/ug-soss-ucil

STUDENT SOCIETIES

There are a number of subject-level societies you can join through the Students' Union, as well as societies that can support your future plans, including:

- Black Women in Business
- Diversifying Economics
- Lawyers Without Borders
- Manchester Entrepreneurs
- ReachOut Society – a mentoring scheme supporting children in disadvantaged communities
- RebrandMe – a pro-bono marketing agency society
- Young Academics

Find out more on the Students' Union website: manchesterstudentsunion.com

STELLIFY

DO MORE BE MORE

There's a reason our graduates are some of the most targeted by the UK's top graduate recruiters (High Fliers Research 2021). We offer you the opportunity for true personal and professional change and growth. We call it Stellify.

We encourage you to broaden your horizons, understand the issues that matter in contemporary society and step up to make a difference to local and global communities. You'll do more, dream more, try more and be more.

Find out more about Stellify: uom.link/ug-soss-stellify

Hear from Indy and Gaby: uom.link/stellify-story
After becoming Homeless Project Coordinators, the pair set up their own campaign to tackle period poverty – 'Once a Month' – which helped distribute sanitary products and care packages to women in need.

Funding and scholarships

UK STUDENT FINANCE

UK GOVERNMENT TUITION FEE LOANS

Full-time UK students can apply for a tuition fee loan from the government

Visit the Government website for more information:
www.gov.uk/student-finance

UK GOVERNMENT MAINTENANCE LOANS

Full-time English-domiciled students can also apply for a maintenance loan from the UK government to help with expenses such as accommodation, food and bills.

For students who are resident in other areas of the UK, please visit the University's finance pages: uom.link/ug-soss-finance

BURSARIES AND SCHOLARSHIPS

We're fully committed to attracting and supporting the very best students. We're one of the leading Russell Group universities for welcoming talented students from low-income households, and we're proud to offer a generous package of financial support.

MANCHESTER BURSARY

The Manchester Bursary is available to UK students registered on an eligible undergraduate degree course and who have had a full financial assessment carried out by Student Finance England. In 2021/22, eligible students were awarded either £1,000 or £2,000 per year depending on their residual household income.

Find out more:
uom.link/ug-soss-finance

UNDERGRADUATE ACCESS SCHOLARSHIPS

The University's Undergraduate Access Scholarships are generously funded by our alumni community and donors.

All students who have successfully completed the Manchester Access Programme and started an undergraduate course at the University will receive a £1,000 award in their first year. Students from households where the income is below £25,000 per year will receive the award for each year of their study.

- Students under the age of 25 who have been in public care for a minimum of three months since the age of 11 will receive £1,000 a year
- Students under the age of 25 who have been estranged from their family for at least six months and have been studying without the support of a family network will receive £1,000 a year.

INTERNATIONAL SCHOLARSHIPS

International students looking for scholarships or other financial assistance towards covering fees and living costs should start thinking about this as early as possible. Many funding agencies and scholarships have strict deadlines and adequate funding for the full cost of your first year must be in place to successfully complete your visa application process.

LAW SCHOLARSHIPS

The School of Social Sciences offers some unique scholarships for Law students, such as the Lemn Sissay Law Bursary and the Graham McKenna-Mayes Scholarship.

Find out more here:
uom.link/law-scholarships

Visit our website for the most up to date information on bursaries, scholarships and student finance: uom.link/ug-soss-finance
In some instances, we offer subject-specific awards and partial-fee scholarships based on academic merit. Check the course listings on our website for details.

FIND OUT MORE ABOUT STUDYING HERE

Our website holds a wealth of information on various aspects of student life. Below are some of the most popular topics.

ADMISSIONS

Application to all of our courses is via ucas.com

Find out more about Undergraduate applications on our website:
uom.link/ug-soss-apply

EU STUDENTS

EU, other EEA and Swiss nationals will not be eligible for home fees or Student Finance England support for courses starting in the academic year 2021/22 and beyond. Students joining us from these countries will also need to apply for a visa under the new Student Route.

For the most up-to-date information, visit our EU finance website:
uom.link/eu-students

INTERNATIONAL STUDENTS

A range of services are available for international students, including airport collection, orientation and specialist student advisors.

For more information, visit our website:
uom.link/soss-ug-international

TUITION FEES

The undergraduate tuition fee and tuition fee loan will remain at £9,250 per year for 2022 entry, but there is the potential for this to change from 2023 entry onwards, so please check our course profiles for the most up to date information.

International fees are not standard across all courses – use the tuition fee search tool to find out the fees for your course:
uom.link/ug-soss-fees

PROSPECTUS

View our 2023 prospectus online:
uom.link/prospectus-ug-23

Student support

We have a range of specialist support services at the University to help you look after your general wellbeing and to keep you on track academically.

STUDENT INDUCTION

An induction programme for all new students takes place during welcome week to help you settle in. This includes:

- the opportunity to meet other students
- meetings with your programme director and student support staff
- the opportunity to join student societies and various social events

To find out more visit our Welcome website: welcome.manchester.ac.uk

ACADEMIC ADVISORS

You meet your academic advisor regularly as part of your studies. Your academic advisor is there to support you throughout your studies on matters of an academic nature.

STUDENT SUPPORT AND ADVICE TEAM

If you'd prefer to talk to somebody outside the School, our student support and student money advisors based in The Atrium in University Place offer confidential appointments and drop-in sessions throughout the year.

Find out more on our Student Support website: studentsupport.manchester.ac.uk

STUDENT MENTORING SCHEME

We operate a peer mentoring scheme, where you can ask questions and get academic help from students who have been in the same position as you.

COUNSELLING SERVICE

We have trained University counsellors on-campus, and a 24/7 counselling service which all students have access to throughout their degree.

STUDENTS' UNION

Our Students' Union has an advice centre to assist you with academic issues and a peer support centre whose services include Nightline, a confidential listening and information service run for students by students.

To find out more visit the Students' Union website: manchesterstudentsunion.com

FIND OUT MORE ABOUT STUDYING HERE

ACCOMMODATION

Guaranteed for all new first year students. For international students, this promise covers the full duration of your course.

Some conditions do apply.

For more information, visit our Accommodation website: accommodation.manchester.ac.uk

MAPS

Get to grips with your future home and take a closer look at our campus

View our maps online:

uom.link/ug-soss-maps

DISABILITY SUPPORT

You are strongly encouraged to contact the University's disability advisory and support service to discuss your needs.

For more information, visit our Disability Advisory and Support Services website: dso.manchester.ac.uk

SPORT

Discover more than 40 sports clubs, a huge variety of fitness classes plus sport volunteering.

Visit our website for more information: sport.manchester.ac.uk

CONNECT WITH OUR STUDENTS

Want to find out more about student life?

Chat with our student ambassadors and ask any questions you have via our website: uom.link/soss-ug-contact

DISCLAIMER

This brochure was produced in May 2022 for the 2023 intake. It has therefore been produced in advance of course starting dates. For this reason, course information, including course content, may be amended prior to your applying for a place on a course of study. There are a number of reasons why changes to course information and/or published term dates may need to be made prior to your applying for a place on a course. These may include, but are not limited to: the need to make reasonable changes to the content and teaching offered in relation to any course for operational and/or academic reasons; the withdrawal of courses due to insufficient numbers; a course not receiving the required accreditation; and/or interruption or loss of key services due to circumstances beyond our control, including fire, flood or other operational issues. Prospective students are therefore reminded that they are responsible for ensuring, prior to applying to study at The University of Manchester, that they review up-to date information by searching for the relevant course at

[manchester.ac.uk/study/
undergraduate/courses](https://www.manchester.ac.uk/study/undergraduate/courses)

†STUDY ABROAD DISCLAIMER

Some aspects of the 2022/23 study abroad/exchange programme may continue to be impacted by the COVID-19 pandemic. The situation is fast-moving and dynamic and may require adjustments at short notice.
