Operational Priorities

2021-22

School: Social Sciences

RESEARCH

| Activity | How will this be measured? | What does success look like? | Owner | Outcome |
|----------------------------------|--|---|--------------|---|
| School review of REF performance | Evaluation reports by external reviewers | Completion of reports, and clear plan of action for next REF cycle | DoR/HoS | Plans under way to conduct School- wide/targeted external review in 2022- 23 Semester 2. |
| Impact case planning | Annual review of ICSs | Early identification of possible REF impact cases and support needed for these | DoR | Faculty driven ICS audit continues. Bespoke support offered to departments by School KE and Impact Officer. Ground up School wide understandings of potential need surfacing. |
| Publication profile evaluation | RRE and annual reports; citations | Rolling profile of REF-able publications; performance management/support at early stage | DoR/HoDs/HoS | RRE suspended and format is under review by the Faculty. So there is some uncertainty here. |

| Annual department reports to facilitate Environment Statement planning | Annual reports and School evaluation | Clear record of departmental success in research to facilitate Environment statements | DoR/DRDs | Consultation with HoDs and DRDs has been fed in to this process. HoS and DoR have canvassed HoDs about specific development and support needs. Responses a little slow and patchy. Depts are better disposed towards this following successful REF outcomes. Light touch review will be implemented by DoR for report back in October 2022. |
|--|---|--|---------------------------|---|
| Increased public profile/impact | Annual evaluation; public events; social media tracking | Updated/current website, increased public profile; External relations embedded across School | DoR/External Relations | DoR planning to meet with SoSS External relations team in July to review and progress |

| Activity | How will this be measured? | What does success look like? | Owner | Outcome |

| Identify researchers/areas for possible large grant applications | Updated database | More staff engaged with/leading large grant applications and with Faculty strategic applications | DoR | Database regularly updated. Engagement levels and potential under review by the DoR with SRO. New initiative on health research showing emphasis on non traditional funding sources. |
|--|--|--|--------|---|
| Strengthen Business Engagement links | KTPs and research led BE in line with strategy | Increasing applications to relevant funders/KTPs | DOR/BE | Development of KTP for SoSS in process, including February workshop with HoDs. Key work continues within the streams of Legal Tech, Healthy Ageing and Digital Securities. First financial project with global professional resource provider (Lexis Nexis) has been secured to |

| | | | | facilitate legal tech research. |
|--|--|---|--------|--|
| Strengthen internationalisation research links | Applications and engagement with University/Faculty priorities | Formation of research partnerships with selected institutions | DOR/IL | Some success with established strategic partners (scholarship, networks, workshops) but dominated by Law and Sociology. We need to explore the potential for, and encourage, broader engagement across the School. |
| International research applications | Funding activity (e.g. GCRF) | Successful applications with international partners | DoR/IL | Partnerships demonstrate a wide geographical range. Funders are more EU/Eurocentric. A post-REF audit will be undertaken with a view to development. Note that GCRF funding no |
