

## Timetable (Welcome Week)

September 2023

### *MSc Urban Design and International Planning Welcome Week Timetable*

*As Head of Department, I would like to welcome you all to the University of Manchester and the School of Environment, Education and Development (SEED). Our Department celebrated its 70th Anniversary last year. Originally a Department of Town and Country Planning, it has grown significantly since 1952 and changed its name to reflect the range of undergraduate and postgraduate degree programmes that we offer as well as staff research interests several times over the years. From this academic year, the Departmental name is changing slightly again to include the word 'property' to fully reflect the significant focus on real estate and related areas such as property development that we now offer and the research and expertise brought by academic staff in the real estate field, alongside colleagues in planning, environmental management and urban design. So I am delighted to welcome new students to the Department of Planning, Property and Environmental Management. I hope you will enjoy your time studying in the Department and the wider University.*

*Professor Mark Baker, Head of Department*

Programme Director – Dr Philip Black
