Academic Success Programme

Welcome Week 2023 Workshops

Our welcome week workshops are stand-alone sessions delivered on different days of the week (see the website for more details). Each interactive workshop lasts 1 hour, and you can take them in any order.

Making grammar work
Grammar is not just about what is right and wrong; it is also about academic style and impact. This interactive session will raise your awareness of the tight connection between language form and meaning.

Speaking at university
Are you ready to chat with other students? How about talking to various university staff members? What experience have you got in speaking at university? In this session you will have a chance to practise speaking about familiar topics and become more aware about your academic speaking skills.

Writing in the right style
You will use writing a lot to communicate at university, whether by an email or an essay. In this session, you will review how to write an email to your lecturers which makes the best impression and receives the best response, and review how to write your essays in an academic style.

Welcome week review
In this session you will have a chance to check your understanding of information from previous sessions and ask questions. There may also be opportunities to discuss an extract of academic writing that you’ve produced or are currently working on.
