

## A week in the life of our LLB Law student, Adam

**Hi, I'm Adam, and I'm in my second year of studying Law.** I am originally from Lebanon but have come to the UK for my studies. With the invaluable opportunities that I have been provided with by the University, I have been lucky to explore numerous areas of law, ranging from commercial law to public international law. You can do so too with consistent career events with several different law firms, as well as the ability to apply to the Manchester Innocence Project and the Justice Hub, helping you put your legal knowledge into practice, which is great preparation for the future.

Formal study hours

Informal study hours

Student society

Part-time work
