

## A week in the life of our PPE student, Arth

Hi, I'm Arth, currently in my second year of studying **Politics, Philosophy and Economics at the University of Manchester**. I mainly specialise in modules in Development Economics, so I'm lucky that Manchester has a world-leading network and resources in this area. There are lots of advantages studying at the Social Sciences building - the access to the Arthur Lewis computer clusters as well as great lectures who are open to new and refreshing ideas. University of Manchester is a great place to do a degree in Social Sciences.

Formal study hours

Informal study hours

Student society

Part-time work

Social activities
