

## A week in the life of our Social Anthropology student, Phoebe

**I'm Phoebe and I'm in my final year of studying BSocSc Social Anthropology.** I am Chair of the Photography Society and enjoy painting, taking photographs and just being creative in my free time. My favourite modules over the last two years have been focused on Visual anthropology and Anthropology of Gender. With the Granada Centre, the University of Manchester is a hub for Visual Anthropologists and offers incredible events outside of the classroom. All of the modules are taught by professors with such passion for the subject, and there is such a variety of topics you can read about and discuss, meaning everyone can find something that they are interested in. We are taught qualitative research skills in both Anthropology and Ethnography, in one of the largest Social Anthropology departments in the UK, preparing us for careers in multiple different sectors.

Formal study hours

Informal study hours

Student society

Part-time work

Social activities
