

A week in the life of our Ancient History and History student, Ammar

Hello, I am Ammar. I am an International Student from India/Saudi Arabia, and I am currently in my second year of studying Ancient History and History. I am interested in the Conquering Hero Alexander the Great, early Islamic Caliphates, late Roman Republic and New Kingdom Egypt. I chose the University of Manchester and am fortunate to study in this institution because it houses professors who are specialized in each of these fields and many other cultures, languages, and periods. The University in regards to Ancient History and History, offers the most detailed as well as the most general modules, therefore, I can go into depth in the subjects that I enjoy and get an introduction to those I have never explored.

- Formal study hours
- Informal study hours
- Student society
