

## A week in the life of our Music student, Aimee

**Hi! I'm Aimee and I am currently in my final year of my MusB degree.** I am a first study singer and composer and am currently preparing for my postgraduate degree in opera studies and vocal performance. I absolutely love living in Manchester and am planning on staying here when my undergraduate is over. The energy of the city is unmatched and it is such a buzzing and supportive community to develop yourself as a young professional and your career. The music community here is so holistic and vibrant, there is something for everyone and the level of teaching, performance and engagement is extremely impressive.
