

A week in the life of our Religions and Theology student, Harry

Hi, I'm Harry! I am a current 3rd year student in Theology,

particularly interested in North African Jewish communities and making the most out of UoM's language learning opportunities - currently learning Biblical Hebrew and Arabic! Hoping to continue this research postgrad. When I have downtime I love to sew and create - currently making a cycling backpack out of an old salvaged table runner! I also love to make music and I am working myself up to perform at some open mics around Manchester.

Formal study hours

Informal study hours

Student society

Part-time work
