

A week in the life of our BASS Politics and Criminology student, Denisa

My name is Denisa and I am a second-year international student from Romania doing Politics and Criminology at the University of Manchester. Ever since I was little I wanted to help people but the prism through which I was going to do it has changed over time. The dream has started from wanting to become a performer when I was in kindergarten, to put a smile on people's faces but now that I'm all grown up that dream has changed. My dream now is to work in the European Parliament to help people through writing policies. To be one step closer to achieving my goal, this year I have also started a second degree at a Romanian University to further enrich my knowledge.

- Formal study hours
- Informal study hours
- Student society
- Part-time work
- Social activities
