

# A week in the life of our BA Philosophy student, Conrad

Hi! My name's Conrad and I'm in my final year studying Philosophy. Over the course of my degree I've studied a wide variety of subjects, both within Philosophy and from other departments. I'm writing my dissertation on Albert Camus' 'The Myth of Sisyphus', discussing whether embracing Absurdism is compatible with living happily. Academically speaking, my favourite part of studying at UoM is how lovely and supportive the academic staff are, but my favourite aspect of my degree by far has been all the extra-curricular opportunities and my involvement with our Students' Union. Because of this, I've met so many lovely people, been a part of so many cool projects, and got a number of exciting professional opportunities - helping me find the career I want to pursue after my degree.
