

## Preparing for National Teaching Fellowship

Teaching Fellowship (NTF) in the next three years then please join us at this suite of interactive online workshops, co-delivered to colleagues across the four universities. We will discuss the award criteria (reach, value and impact), how to develop a narrative 'golden thread' and build up a bank of appropriate evidence. With input from existing award winners and sector leaders, the programme provides the perfect basis from which to plan and develop your case for the future.

This 'pipeline' programme is **aimed at colleagues with significant experience** and an existing or developing reputation for teaching and learning. Colleagues must hold a minimum of Fellowship of the Higher Education Academy / AdvanceHE.
