

Data Fellowship Project 2022

**Respect - Quantitative and qualitative data analysis trends of:
domestic abuse helplines for male victims and perpetrators.**

Organisation and Team

Men's Advice Line and Respect Phoneline

Selection Method

CVs and virtual interviews via Teams

Application Criteria

Essential:

- Excellent analytical skills.
- Ability to understand the impact of domestic violence.
- Interest in the work Respect does, Helplines in particular.
- Understanding of the strengths and limitations of quantitative data.
- Ability to formulate different narratives based on the data analysis and identify the most realistic one;
- Good writing skills.
- Willingness to work collaboratively with practitioners

Desirable:

1. Experience with SPSS and how to transfer data from one platform to another. Our current system is Salesforce CRM using a custom-built database we designed that allows Excel to SPSS downloads.
2. Knowledge of domestic abuse research terrain; debates on the connection between gender and intimate partner violence, or ability to work with such complexities.

Project Outline

Quantitative and qualitative analysis of the case record forms for helpline calls recorded within the Salesforce database; for Respect's two helplines: Respect Phoneline (for male or female perpetrators) and Men's Advice Line (male victims of domestic abuse).

This project offers the opportunity to present findings to Respect's board, who include significant national policy makers such as the Police and Crime Commissioner for Northumbria and the Violence Against Women and Girls Commissioner for Brighton Council.

It would also offer the opportunity to write up the findings into a briefing paper for possible publication by Respect (naming the placement holder as author or co-author as relevant).

There would be the potential to present findings at a board meeting or for a summarised report of key points and recommendations to be made available.

Data Fellowship Project 2022

Practical Considerations

- Access to a computer or laptop that has at least Windows 10;
- Strong internet connection;
- Confident to lone work from home with support virtual and via phone;

Support and Training

- Induction and training to the organisation and team;
- Understanding the remit of Respect's helpline service, audience and the specialist support offered to users;
- Induction support to navigate and extract data from the telephony service and Salesforce CRM;
- Initial weekly check-ins and line management support thereafter.
