Programme of Study instructions 25-26

A Programme of Study (PoS) is a tool that allow users to view a timetable in a grid format. They operate in a similar fashion to your personal "Publish" timetables that you may use during the teaching period. PoS are directly linked to Syllabus Plus (S+ is the timetabling software used) and so any update made in S+ will automatically update the PoS within the hour. You can view the following information:

- Programme timetables
- Individual course unit timetables
- Location timetables
- Bespoke combinations of units can be added upon request - please contact HUMS-timetabling@manchester.ac.uk to request this.

How to access a programme of study timetable for 25-26

1. Use the following link:
https://timetabling.manchester.ac.uk/Timetables/prod2526/Programmes/

2. Select whether you wish to view locations, programmes, or individual units (locations should be ignored until timetables are officially published every year).

3. Select your desired department

4. Select your desired location, programme or course unit.

5. Select the specific weeks you wish to view. Semester 1 or semester 2 can also be selected.

6. Click on 'view timetable'.

Please note, if you are attempting to access this resource remotely off campus you will need to ensure you are connected to Global Protect.
