

## **The University of Manchester Global Futures Scholarship Eligibility and Application Criteria – 2024 awards**

### **Saudi Arabia and United Arab Emirates – Master's Scholarships**

**Award Value: £8,000 for high performing students from Saudi Arabia and the United Arab Emirates.**

#### **Eligibility**

Eligibility will be based on meeting the following criteria:

1. Applicants will only be considered for these awards if they are a permanent resident in either the Kingdom of Saudi Arabia or the United Arab Emirates. To be considered as domiciled in this country applicants must have predominantly resided in one of these two countries during the last three years.
2. We consider your permanent country of residence to be the country in which you are ordinarily resident, not a country where you are only living for the purpose of full-time education.
3. Eligibility is based on domicile as defined above rather than nationality.
4. Awardees will be selected based on academic merit and the quality of their application, but we will endeavour to achieve a balance by course and gender in the allocation of the awards.
5. Applicants must accept (made Firm) a conditional or unconditional offer to study a full-time on-campus master's degree at The University of Manchester by the above deadline of 1 May, 2024.
6. Applicants must apply for the scholarship via an online form by 13 May 2024. The link to the application form will be emailed to all offer holders.
7. Students will require a minimum of a UK 2.1 (Second Class, Upper Division) honours degree or overseas equivalent to be considered for the awards.
8. Applicants must have completed their bachelor's degree and satisfied all academic and non-academic conditions of their offer by the 15 July, 2024.
9. Decisions will be made on applicants' performance in their bachelor's degree. Students who have completed postgraduate qualifications are welcome to apply but we will only consider bachelors degrees when allocating the awards.
10. Applicants must complete all sections of the application form. Incomplete forms will not be considered in the selection process.
11. Should any of the grade information you provide prove to be false, The University reserves the right to withdraw the award.
12. Applicants must be classified as 'international' for tuition-fee purposes.
13. Applicants must be self-funded (i.e. not sponsored by a government or commercial funder).
14. The award will be made as a discount against the programme's international tuition fees and no payment will be made to the awardee.
15. For courses with a duration of more than one year the discount will apply to the first year of tuition fees only.

16. The award applies only to full-time courses of study delivered at The University of Manchester's UK campus in Manchester.
17. Applicants for blended and distance learning programmes are not eligible for the award.
18. Applications for MBA, MPhil, MEnt, Master of Architecture (MArch), Architecture & Urbanism (MA) and Master of Landscape Architecture (MLA), Postgraduate Certificate in Education (PGCE), Clinical Medicine and Dentistry degrees are **not** eligible for the award.
19. Several 'Master's by Research' courses are not eligible for this award. These programmes are listed in the appendix below.
20. The scholarship may be used in conjunction with other partial University of Manchester internal awards, subject to the conditions of the other award scheme.
21. The scholarship **cannot** be used in conjunction with other internal full tuition awards such as the Equity and Merit programme and Women in STEM.
22. Awardees for the Great Scholarship Scheme will not also be eligible for the Global Futures Scholarships. In the event of being offered both awards the awardee must select one of the scholarships.
23. If the amount of combined University of Manchester scholarships exceeds the total cost of the tuition fees, the tuition fees will be covered in full only; to wit, no payment will be made to the awardee.
24. Given clause #4 above, the scholarship cannot be automatically transferred to an alternative course. Therefore, there is a risk that a change of course may lead to the withdrawal of the offer of a scholarship award. Awardees must seek approval from the International Office before making any changes to the programme of study, this includes course changes or any interruptions of study.
25. The award cannot be deferred to a later intake cycle.
26. Students may only submit one scholarship application even if they apply for multiple courses. Where students submit multiple scholarship applications only the first will be considered.
27. Successful candidates must be willing to work with the international recruitment team from time to time to serve as a student ambassador for the University during their period of study. This may entail attending physical or virtual presentations for prospective students, providing written or filmed testimonials for the University's website and acting as an advocate for the scholarship programme. It may also include the University's use of certain identifying data (such as the scholarship recipients' names, home country, and courses of study) in the context of the above and related activities. The time commitment for ambassador activities should not typically exceed 8 hrs per semester.
28. We will pass your details to our Alumni Office who may contact you following graduation.

NB. For visa purposes, under UK Visas and Immigration regulations you must be able to demonstrate that you can pay the remainder of your tuition fees as well your living costs.

Awarding timeline Process. We will notify all successful applicants by **31 July, 2024**.

## **Appendix 1. Excluded MSc by Research Courses**

**Applicants for the following Master's by Research courses will not be eligible for the Global Futures Scholarships.**

- MSc by Research in Physics
- MSc by Research Physics
- MSc by Research in Astronomy and Astrophysics
- MSc by Research Chemistry
- MSc by Research Earth Science
- MSc by Research Atmospheric Sciences
- MSc by Research Environmental Geochemistry and Geomicrobiology
- MSc by Research Palaeontology
- MSc by Research Composite Materials
- MSc by Research Corrosion and Protection
- MSc by Research Metallic Materials
- MSc by Research Textile Design, Fashion & Management
- MSc by Research Condensed Matter Physics
- MSc Research Soft Matter & Liquid Crystals Physics
- MSc by Research Nuclear Physics
- MSc by Research Particle Physics
- MSc by Research Fluids and Soft Matter Physics
- MSc by Research Chemical Engineering
- MSc by Research Catalysis and Porous Materials
- MSc by Research Materials
- MSc by Research Fashion Management and Marketing
- MSc by Research Nano and Functional Materials
- MSc by Research Environmental Science
- MSc by Research Textiles and Apparel
- MSc by Research Ecology and Evolution
