

A week in the life of our Art History student, Melissa

Hi, I'm Melissa and I'm an international student (from the USA), in my final year of studying Art History. Manchester has always made me feel at home with the many activities available at the University and around the city. What I like about the University of Manchester is the amazing art history course it provides with lots of options for interesting subjects and lots of free time to socialize with my friends.

Formal study hours
Informal study hours
Student society
Part-time work
