

A week in the life of our BAEcon Accounting and Finance student, Karina

Hi I am Karina and I am currently in my second year studying Accounting and Finance. As an international student, I enjoy studying at the University of Manchester because of its multicultural environment and vibrancy. The Accounting and Finance pathway offers a variety of modules from both the Alliance Manchester Business School and the School of Social Sciences. I have also chosen a language module as a free choice unit to improve my employability. The university has provided me with a variety of career support, such as career fairs to build professional connections with top firms. Furthermore, joining societies enriches my university experience and enhances my personal growth. I am really grateful for the opportunity to join the music tour of the University of Manchester Orchestra in Ireland during my first year of study.
