2024 - What's next?

Booth Street East
We will open our permanent space for Flexible Learning, equipped with innovative teaching and learning facilities including virtual reality suites and more.

Microsoft Certifications Pilot
We'll engage with staff about our pilot launch of the Microsoft Certifications for our students to attain free certifications on using Microsoft applications.

Assessment Toolkit
As we approach completing the assessment toolkit, we will continue to embed it university wide for staff and students.

Digital Learning Service
We'll support eLearning Managers in effectively communicating project details, clarify timelines, and introduce new ways of working for the upcoming launch of the DLS later this year.

Microcredentials Symposium
We plan to host an event providing opportunity for education specialists across the sector to share experiences of developing and using microcredentials.

Central Learning Environment
We're continuing to engage with Instructure and relevant staff and student groups while developing plans for early adopters.
