

# Research involving animals

carried out at The University of Manchester requiring a Home Office Licence

At The University of Manchester our research covers a wide spectrum of disease in the UK including cardiology, stroke, dementia and cancer.

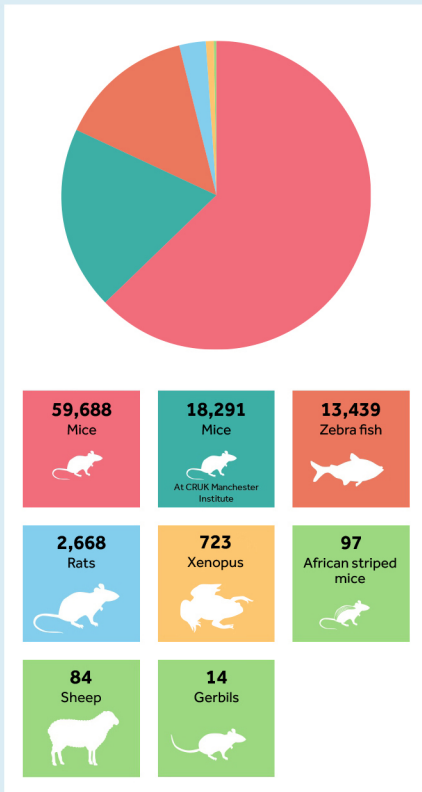

Currently...

**7.4 million** people living with a heart or circulatory disease in the UK (*British Heart Foundation 2020*)

**164,901 deaths from cancer** between 2015 and 2017 in the UK (*Cancer Research UK*)

**850,000 people** who have dementia (*Alzheimer's Society*)

More than **100,000 strokes** in the UK each year; that is around one stroke every five minutes (*Stroke Association*)

*Figures represent all research involving animals at The University of Manchester carried out under Home Office Licence for 2022*
