

Timetable (Welcome Week)

September 2024

[UG Geography]

A warm welcome to the Department of Geography at The University of Manchester to all our incoming first years and a warm welcome back to our 2nd/3rd/4th year undergraduates! Welcome Week is an important starting point to the new academic year and there are several meetings organised for the different year groups. These meetings will provide you with vital key information to ensure a smooth start to Semester 1. I am looking forward to meeting you all. Wishing you all the best of luck with your studies in 2024-2025.

Professor Philip Hughes, Head of Department
