

# Top Tips to Ace Your Microsoft Credentials Exam

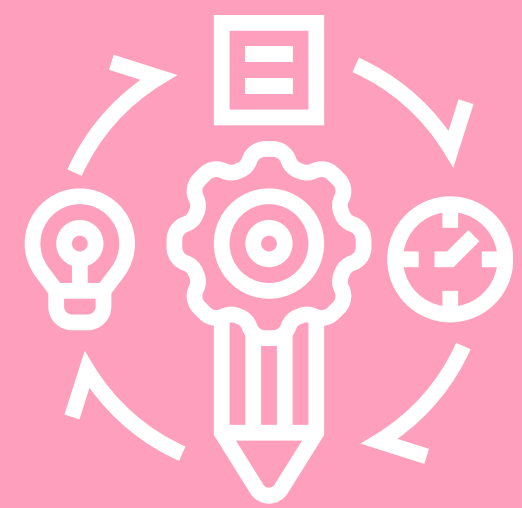

## Katie Clarke

I'm a graduate intern for the Flexible Learning Programme. I recently completed the AI-900: Microsoft Azure AI Fundamentals exam. Here are my top tips:

## Preparation

- Use the LearnKey course to start preparing for your exam.
- Work through the G-matrix study guide and attempt the practise tests in training mode.
- Take a practice mode in testing mode.
- Review proficiency and revisit objectives which you have not scored highly on.
- Set up your Certiport account [<link>](#)
- When you are confident and are able to score > 70% on the practice tests -book your test [<link>](#)

## On The Day

- Arrive at the location before your test start time.
- Log in to compass cloud
- Mark any questions you are unsure of for review.
- Pace yourself: work through the questions at a pace that allows you some time at the end of the exam to revisit questions you weren't sure about.
