ABOUT THE SCHOLARSHIP

Equality, diversity and inclusion (EDI) is at the heart of all our activities in the Faculty of Biology, Medicine and Health at Manchester.

We are committed to improving the diversity of students and staff, actively encouraging and supporting careers in research and higher education, and embedding EDI principles to ensure a positive and inclusive research environment.

This scholarship aims to support those commitments by providing fully funded PhD studentships for candidates from groups under-represented in postgraduate research.

The scholarship specifically aims to support those who demonstrate the potential for research and academic excellence, and a high motivation for postgraduate research.
