

Digital Talent and Content Rep

Video Task Instructions

In this mandatory task, you are required to film a short clip of yourself promoting our open days.

The format we are looking for is you talking at the camera, and the final clip should be no longer than 45 seconds. While you are free to edit the video as you see fit, please note that our main assessment criteria would be your comfortability in front of the camera, personality, and flair for storytelling instead of your editing skills.

A script has been provided for you below to follow:

"Wondering what it's like to study science and engineering at The University of Manchester?"

Here's your chance to join us on campus to see what student life is like and to have all your questions answered.

This is more than an opportunity to speak to our academics and admissions staff. Get down to the details and receive candid advice from our student ambassadors across subjects, partake in project demonstrations, and tag along on facility tours.

There's no better time than our open days to discover your passion and engineer your future. What are you waiting for? Book your place now!"
