

Year 3 BNurs Semester 2 Practice Message

Dear Practice Partners,

We are pleased to share an update regarding Year 3 BNurs students entering Semester 2 of their programme. This phase marks a critical stage in their development as they prepare for professional registration and autonomous practice.

Theoretical Components

Unit Title	Description
The Nurse as Leader, Manager and Coordinator of Care	Designed to consolidate students' leadership capabilities, critical thinking, and evidence-based decision-making.
The Nurse as an Enquirer of Clinical Evidence	Explores the complexities of managing care, coordinating teams, and applying clinical evidence to improve patient outcomes.

Practice Alignment

Proficiency Area	Details
Medicines Management	Safe and effective administration, patient education, and adherence to legal and professional standards.
Professional Values	Upholding the NMC Code, demonstrating integrity, compassion, and accountability in all aspects of care.
Episodes of Care	Leading and coordinating care for individuals with complex needs, demonstrating holistic and person-centred approaches.
NMC Proficiencies	Application of advanced clinical skills, leadership in care delivery, and effective communication within multidisciplinary teams.

Practice Expectations

Students are expected to take increasing responsibility for care delivery, contribute to multidisciplinary decision-making, and reflect on their practice using evidence and feedback. They will be supported by Practice Assessors and Supervisors to ensure safe, effective, and person-centred care.

We appreciate your continued support in facilitating high-quality learning experiences for our students. Your role in supervising and assessing their progress is vital to their success and professional development.

Kind regards,

BNurs Programme Team

The University of Manchester
