

Year 3 MNurs Semester 1 & 2 Practice Learning Update

Dear Practice Partners,

We are pleased to share an update regarding Year 3 MNurs students entering Semester 1&2 of their programmes. These students are undertaking Placements 7 & 8 and are working towards the achievement of Part 3 of the NMC Standards of Proficiency for Registered Nurses, as recorded in the PARE system.

Theoretical Components

Unit Title	Description
Advancing Care: The Social and Political Context of Health	Encourages students to critically examine the broader determinants of health and the impact of policy, leadership, and advocacy on nursing practice.
The Nurse as Leader, Manager and Coordinator of Care	Designed to consolidate students' leadership capabilities, critical thinking, and evidence-based decision-making.
The Nurse as an Enquirer of Clinical Evidence	Explores the complexities of managing care, coordinating teams, and applying clinical evidence to improve patient outcomes.

Practice Alignment (PARE Proficiencies)

Proficiency Area	Details
Medicines Management	Demonstrate proficiency in medicines management, including safe administration and patient education.
Episodes of Care	Engage in episodes of care that reflect increasing complexity and independence.
Professional Values	Apply professional values in all aspects of care, including respect, compassion, and advocacy.
NMC Proficiencies	Meet Part 3 PARE proficiencies through reflective practice, clinical reasoning, and effective communication.
Team Contribution	Contribute to team-based care and support learning in the practice environment.

We appreciate your continued support in facilitating high-quality learning experiences for our students. Your role in supervising and assessing their progress is vital to their development as future nurse leaders.

Kind regards,

The BNurs/MNurs Programme Team
