

Delivering our strategy

- Delivery, delivery, delivery
- *How* we deliver is as important as *what* we do
- There is much we still need to work out together
- What does delivering well look like to you?
- How can you get involved?

We've made a start

- A set of outcomes for the first 3 years
- A work package that sets high level priorities
- 8 measures of success
- Identifying the available funding
- Clarity of governance and accountabilities
- A delivery handbook

What's in the work package?

- More impact, more quickly, for more people
- We begin, but don't finish, each leap
- Initiatives aimed at improving our student experience
- New teaching markets and curriculum
- Better services
- Greater support for our people
- New Finance and People system
- Core technology renewal and a new infrastructure plan
