

# How to delete the REMORA app from your android device

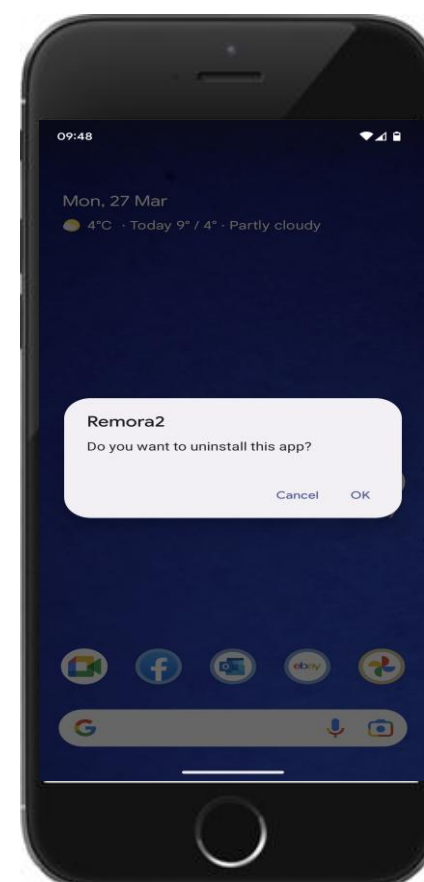

Find the REMORA app logo on your home screen or app menu page. Put your finger on the logo and hold it in place for 1-2 seconds.

Once selected the above option bubble will pop-up. You can now drag the logo upwards and two options will appear: "Remove" and "Uninstall".

Move the logo over to the "Uninstall" bubble. Once your finger is over it, the bubble should become highlighted. At this point you can drop the logo here.

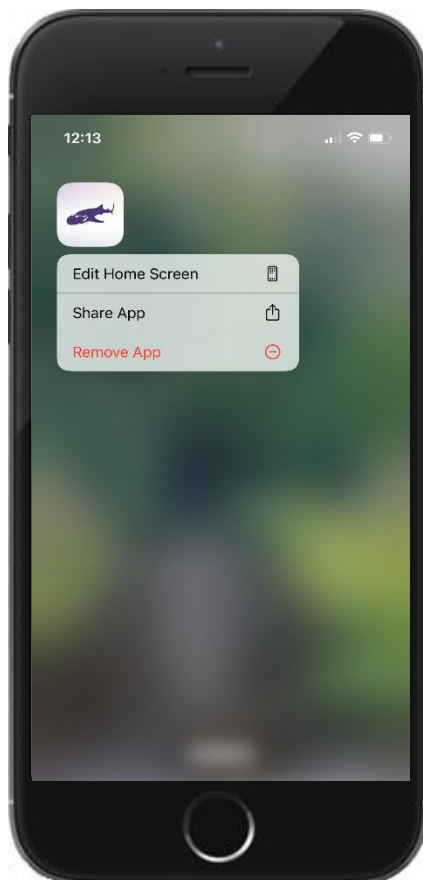

Once you drop the logo into the "Uninstall" option you will be asked if you are sure you want to delete the app. Please select "OK".
