

MAP Photo and Video Consent

Dear MAP Student,

During the programme, there may be opportunities to take photographs and/or videos to record the activities you will be involved in. We would like to take this opportunity to get your permission to use these photos and videos in the University's publicity. We would also like to use photos and videos that we may take at future events/workshops that you will be attending.

These photos and videos will be used by the University when reporting on our events and publicising the work we do with local sixth form colleges. The photos and videos may be used on publicity or promotional literature produced by The University of Manchester, including leaflets, posters, newsletters and other display material; on The University of Manchester's website and other social media sites, including the MAP LinkedIn Group, X (previously Twitter) and YouTube; and in any publicity material about our services sent to the news media.

Please note that for all online activities, we will notify you if any recordings or screenshots are taken by the MAP team.

If you do have any questions about the way in which the photos and videos will be used, please feel free to contact us via the email below.

You can indicate whether you provide your consent to the above via the MAP registration form.

If you do not give photo and video consent, you must inform a member of staff at registration for the MAP event you are attending.

Best wishes,

The MAP Team
