DOCTORAL ACADEMY

POSTGRADUATE RESEARCH **FUNDING OPPORTUNITIES GUIDE** **2027/28 ENTRY**

POSTGRADUATE RESEARCH OPPORTUNITIES FOR 2027/28 ENTRY

The FBMH Doctoral Academy oversees a wide range of Postgraduate Research (PGR) funding opportunities which are available for supervisors. A summary of current schemes is included in this document and, where confirmed, includes relevant dates for calls, applications and offers.

Funded schemes

Each opportunity will be launched via Faculty Announcements and posted on the [Doctoral Academy SharePoint](#). Many of the schemes are competitive, which means there are more projects advertised than the number of studentships available to ensure the highest quality candidates are selected.

Information for prospective applicants will be advertised and made available on the relevant external facing websites when each scheme goes live.

Alternative external funding

Alongside our funded schemes, we strongly encourage supervisors to consider alternative external routes to support PGRs. The Doctoral Academy provides costings, advice and support for supervisors wishing to submit applications for externally funded studentships i.e. via charities, the NHS etc. Full details on externally funded studentships, the process and timeframe to support applications can be found on our [SharePoint](#).

We will also support and work with the [Business Engagement Team](#) for studentships funded by industry. The Doctoral Academy facilitates advertising of funded studentships which will ensure all processes are followed prior to an offer is made.

Self arranged funding

We receive many applications from candidates with self arranged funding (through sponsors, government, employers or personal funds) which are directed to supervisors following submission of a formal application.

The Admissions team will undertake qualification assessments of applicants and Division PGR Tutors will undertake an independent interview on request. To attract self-funded candidates, supervisors are encouraged to submit [self-funded projects](#) which will be advertised on [our website](#) and FindAPhD.

SUPERVISOR ELIGIBILITY AND EXPECTATIONS

Our [SharePoint page](#) outlines the University expectations for postgraduate research supervisors which you need to be aware of.

The key information you should note before submitting a project for our main funded programmes is:

- Individuals that were awarded a studentship as Primary Supervisor from any of our programmes last year (i.e. have a PGR starting in October 2026) cannot apply to any scheme as Primary Supervisor this year.
- For our major programmes, individuals can submit a project as Primary Supervisor to a maximum of two. The two projects must be clearly distinct.
- Additional restrictions may apply to individual schemes. Please see call documentation for further details.
- All main supervisors must engage with training and development opportunities as outlined by the Doctoral Academy - see our [Supervisor Development SharePoint page](#) for more information.

Project triage

For the MRC DLA and BBSRC NWD schemes a project triage stage will be applied. Further details about this can be found in the individual project calls.

For all other schemes, project and/or candidate triage may be applied depending on the level of demand. Should this occur, we will inform supervisors and provide additional detail on the processes involved.

Where project triage is applied, the target will be advertisement of approximately 2x the number of studentships available in the scheme.

APPLICATION DEADLINES

Outside of our funded schemes - which have their own application deadlines - we have fixed application deadlines for each intake. It is important that supervisors understand these deadlines when applying for external funding or engaging with potential applicants, as we cannot accept late applications.

- September entry deadline for applications: 15 June
- January entry deadline for applications: 15 October
- April entry deadline for application: 15 January

PROJECT APPROVAL

Prior to any offer being made, supervisors are required to outline full details of the supervisory team (in line with [University PGR Supervision policy](#)), the project, funding arrangements and training.

For most funded schemes this is gathered as part of the project call documentation, but for all other routes supervisors are required to complete a [PGR Project Approval Form](#)* well in advance (this will be provided by the Doctoral Academy Admissions team).

All projects, regardless of route or funding, need to be approved by the Senior Tutor and/or Head of Division for consistency.

Please refer to our [supervisory eligibility and expectations statement](#) which applies to all projects, regardless of funding.

**Division of Cancer Sciences supervisors have a local version of this form*

NOTE

The dates set out in this document are provisional and subject to change. They will be confirmed once calls are sent out - please contact the Admissions team if you require further information.

SCHEMES AND PROGRAMMES

Once again, we are launching several major schemes at the start of our recruitment cycle to maximise recruitment of exceptional candidates to support our leading research, while rationalising workload and striving to deliver a fair and equitable approach.

Learn more about each scheme using the links below.

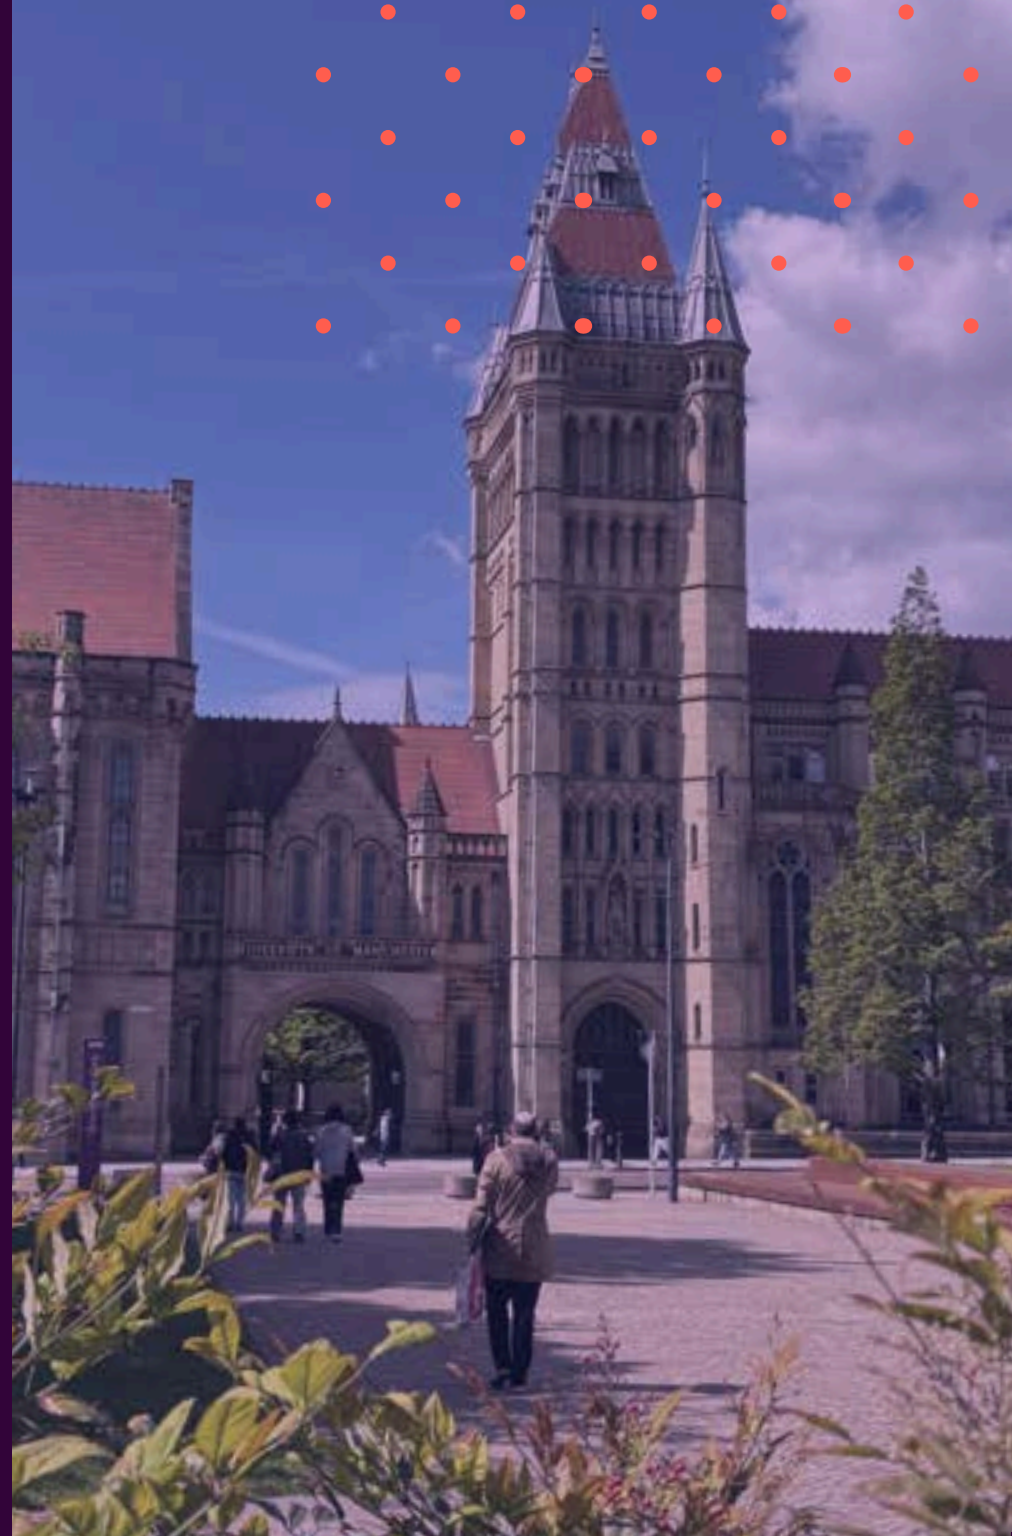

LAUNCHED FOR 2027/28 ENTRY

- [MRC NW-DMS in Medical Science](#)
- [BBSRC NWDP in Bioscience](#)
- [EPSRC DTP](#)
- [International Partnership PhD Studentship](#)
- [Excellence in Diversity PhD Scholarship](#)
- [CODE-M PhD Programme](#)
- [President's Doctoral Scholar Award](#)
- [CRUK MCRC \(Clinical, non-clinical and MB-PhD\)](#)
- [CRUK MI](#)
- [UoM-CSC](#)
- [ESRC NWSS DTP](#)
- [MRC CoRE in Exosome Immunology](#)
- [BHF Multidisciplinary PhD Programme \(CHAIN\)](#)
- [Alzheimer's DTC \(VIDA\)](#)

DETAILS TO BE CONFIRMED FOR 27/28 ENTRY

- [PhD by Enterprise](#)
- [Unilever Industrial DLA Programme](#)
- [4Ward North PhD Programme](#)

MRC NORTH WEST DOCTORAL PROGRAMME IN MEDICAL SCIENCE

The MRC North West Doctoral Programme in Medical Sciences (NW-DMS) is a partnership between The University of Manchester and the University of Liverpool, funded by the Medical Research Council (MRC). The programme offers fully funded doctoral training in biomedical and medical sciences, combining interdisciplinary research with specialist training and professional development.

Funding	Tuition fees, UKRI stipend, project costs
Eligibility	Home and overseas applicants
Duration	4 years
No. places available	35 across institutions
Programme Contact	Dr Joe Swift
Call for projects launched	Week commencing 27 July 2026
Project submission deadline	Monday 21 September 2026
Applications accepted from	Monday 26 October 2026
Application deadline	Friday 27 November 2026
Panel interviews	Week commencing 8 February 2027

Find out more:

Biological Sciences
Research Council

BBSRC NORTH WEST DOCTORAL PROGRAMME IN BIOSCIENCE

The BBSRC NWD in Bioscience is run across UoM (FBMH and FSE) with the University of Liverpool. The programme offers fully funded studentships at both institutions and is delivered in collaboration with industry partners Boots No7, Unilever, Waters and Bionow, who will provide training and research opportunities.

Funding	Tuition fees, UKRI stipend, project costs
Eligibility	Home and overseas
Duration	4 years
No. places available	28 across institutions
Programme Contact	Prof Rasmus Peterson
Call for projects launched	Week commencing 27 July 2026
Project submission deadline	Thursday 24 September 2026
Applications accepted from	Monday 2 November 2026
Application deadline	Friday 4 December 2026
Panel interviews	Week commencing Monday 1 March 2027

Engineering and
Physical Sciences
Research Council

EPSRC DOCTORAL TRAINING PROGRAMME

Each year FBMH are allocated funding from the EPSRC DTP award held in the Faculty of Science and Engineering. The Doctoral Academy then co-ordinate an internal call for projects to award studentships.

Funding	Tuition fees, UKRI stipend, project costs
Eligibility	Home applicants (potential for overseas)
Duration	3.5 years
No. places available	3
Programme Contact	Prof David Bechtold
Call for projects launched	Week commencing 27 July 2026
Project submission deadline	Monday 21 September 2026
Applications accepted from	Monday 19 October 2026
Application deadline	Monday 16 November 2026
Panel interviews	Week commencing 1 February 2027

Find out more:

INTERNATIONAL PARTNERSHIP PHD STUDENTSHIPS

Studentships are available to support collaboration between the Faculty and European institutions. Applications that include collaboration or visits to any European university or research institution will be considered.

Funding	Tuition fees, UKRI stipend, project costs, Research Training Support Grant, contribution to PGR travel costs
Eligibility	Home and overseas
Duration	4 years
No. places available	4-5
Programme Contact	Professor Qing-Jun Meng
Call for projects launched	Week commencing 27 July 2026
Project submission deadline	Monday 12 October 2026
Applications accepted from	Monday 9 November 2026
Application deadline	Friday 11 December 2026
Panel interviews	Week commencing 22 February 2026

UOM-CHINA SCHOLARSHIP COUNCIL SCHEME

Fully funded studentships for candidates from China. There's no call for projects but candidates apply for the scholarship and need to obtain an academic offer before being nominated by their supervisor for an internal panel interview. Selected candidates must then apply to CSC directly for a final decision on awards. Supervisors are encouraged to have a self-funded project advertised to attract potential candidates. This also includes the Innovation pathway.

Funding	Tuition fees (max band 2) covered by FBMH and stipend covered by CSC
Eligibility	Chinese applicants
Duration	3 years
No. places available	3
Programme Contact	Dr Hui Guo
Call for projects launched	-
Project submission deadline	-
Applications accepted from	Monday, 5 October 2026
Application deadline	Monday 11 January 2027
Nominated candidates selected	Tuesday 9 March 2027
