

Student Coordinator Networking Meeting: 9th December 2010

Resource to boost attendance.

(for semester 1)

Having PASS timetabled in Welcome Week (at least) for students. Time slot can then be used to bring all students together in their PASS groups where a planned activity can then take place.

Some kind of social/bonding activity will help build relationships between PASS leader and PASS group, and also between the PASS group, which will then set a good grounding for the rest of the semester and in turn should hopefully boost attendance. (e.g. Scavenger Hunt)

When would it be used?

Welcome Week

How many people will it reach?

All Introductory Maths students

Who else would need to be involved?

Academic Coordinator, admin, sabbatical

Do you need any resources to create it?

Large enough room to accommodate all students

Is there a cost associated with it?

Depends on activity (e.g. prize for Scavenger Hunt winner)
